Editorial Board Message

Writing our thoughts down is an expression with which we can connect to the world. This year Principal Sr. Flora has given us a rare opportunity of making our own class magazine. In this process we got acquainted to ourselves.

The school aims to groom children to ensure that they become the 'fittest' to survive. To this end, training in all fields important .i.e. Sports, arts, academics, inter-class competitions, co- curricular activities etc...is acquired and along side the spiritual , ethical and holistic ways of life are taught. Therefore, this e- magazine is a part of the same, wherein we have put together optimistic perspectives, happy memories and valuable lessons we have learnt. Hope everyone connects to it!

Principal's Message

"As long as our ideas are expressed and thoughts kindled we can be sure of learning, as everything begins with an idea."

My dear Parents, Teachers and Students,
I was always attached to the thought Home is the first school and School is the second home. In fact, today it has come true. COVID 19 has altered our life including our school system, teachers, children and parents. Our homes have become school and parents have become teachers too. Unimaginable! Invariably it is happening. It's a fact we have to live with now whether we are rich or poor, far or near. E-learning has emerged as the best way of imparting education.

It gives me great joy to meet you all through this e-magazine a great way to communicate and be creative. Enjoy our magazine as we move on with our lives. I thank all who contributed to this endeavor.

Be assured that the Management, teaching and non-teaching faculty of the school is working towards making this lockdown a meaningful and fruitful one. We will leave no stone unturned in educating our Kilbil family. I remain grateful to all the parents and well-wishers for your priceless support and cooperation at this moment. My sincere advice to all the students – Do not lose HOPE. Concentrate on the Silver lining amidst the thickest and

darkest cloud at present times. We, at Kilbil St. Joseph's High School, hope to see you all soon – refreshed and rejuvenated. Till then SPARK A LIGHT – ILUMINATE THE WORLD.

Sr. Flora UMI

Principal

Kilbil St. Joseph's High School, Nashik

Manager's Message

Dear Parents, Teachers and students,

“Good habits shape your future”

” So I am reminded of a little piece of wisdom from the life of Felice Leonardo “Leo Buscaglia” known as “Dr. Love”. There was a strange system in his family. At the end of each day, after everybody sat around the dining table, the father would ask each one, what they had learnt from the day. each one had to share something that they had learnt on that day and only then they could eat. So in case anyone of them in the family said, “No, today I learnt nothing”, it seems the father used to say, “Let everything remain on the table, come lets go and open the encyclopaedia. Let’s learn something and come back to the table and only then we shall eat.” Leo used to think that he was a cursed child of a bad father who did not allow him to enjoy his dinner and rather demanded that he would have to tell him what he learnt on that day.

As life moved on, Leo became a motivational speaker and a professor in the department of Special Education at the University of Southern California. Today, when he listens to the standing ovation of lakhs of people for his excellent performance, he says, “But one thing has not changed; when I brush my teeth, and I come to the bed and lie down, I can still hear Papa ask me, 'Felice, what have you learnt for the day?'" All great people have a history of discipline and cool habits Yes, good habits shape your future.

.Keep learning something every moment. As infants, we're presented with a strange new world to discover. And with nothing else to do, we dive in head first, devoting all our time to learning how to use our five senses. At first we appear completely hopeless, not even realizing that our arms and legs are parts of our body. But soon enough, we start figuring some things out. Within a few months, we learn how to recognize faces better than a computer can.

COVID 19 too taught us new learning. Right now, we see ourselves collectively facing this pandemic, a situation for which we had no experience and very little preparation. And, at this time when the whole world is battling against it, Kilbil St. Joseph has added another feather to its cap; the E-Magazine, to provide a platform to our students to bring out their creative thoughts and expressions.

My hearty congratulations and appreciations to the Principal and the teachers for their untiring effort in moulding the young minds and bringing Kilbil St. Joseph to its zenith. I also extend my heartfelt gratitude to all the parents for their continued support to our Institution and its endeavours. Dear parents, you have, indeed, walked an extra mile to ensure that your children make the best use of their time.

I pray that you and your children would enjoy the journey as you sail through this enchanted ocean of brilliance. I wish you all a happy and grace filled days ahead.
May God Almighty keep us safe and healthy.

Sr.Alice Antony
Manager
Kilbil St.Joseph's High School

The Resilience of Kilbil

Every Academic year is closed with great contentment and satisfaction of having achieved all what we have planned and aimed at. But alas! the academic year 2019-2020 came to an abrupt and inconclusive grinding halt on the 16th of March 2020. The reason a tiny Corona Virus originated in Wuhan China was transported to the entire world and finally came to pitch its tent even in our beloved country India.

Though all of us were hearing a lot about this pandemic and the havoc it makes in various parts of the globe, we were rather comfortable thinking that it is oceans away and we are perhaps immune to it. But it caught us almost unaware when various states of our nation began shutting down. Finally, all educational institutions were asked to shut down indefinitely by mid March. The nation went in to an unprecedented complete lock down for 21 days, 19 days, 20 days, etc and then the onus was passed on to each state and thereafter each district, panchayat, locality, etc. The nation began to open up little by little, sector by sector from August 2020.

When the country went into a total lock down, we at Kilbil began to look for new vistas under the dynamic leadership of our principal Sr. Floropia to keep connected with our students, teachers and parents. Not even an iota of helplessness experienced at our end. Right away held the bull by its horns to harness and master the online literacy! As the usual 10th standard classes were on before the closure of the academic year and before the commencement of the new academic year the teachers had the opportunity to experiment their online efficiency right away and gain confidence. Almost throughout the summer vacation the management together with the staff was engaged in some or other form of online training and equipping themselves to grab the online opportunity as soon as the school reopens. Having girded with our loins, we did not shy away to reopen the school in the mid-June. Even after the reopening we continued with our online literacy from time to time, to update ourselves to fulfill the various exigencies of online teaching. My honest appreciation to the older folk to which I too am a part as we never kept ourselves aloof from this new challenge.

Nothing was missed out with the exception of the physical presence of one another.....The vacuum created by a condition like this was too deep and too wide to be filled in. Months on end we had not met each other. The children pined and the parents and the teachers groaned! An year long ordeal of a tiny Virus! The eager impatient long wait to see some gleaming light on the other end of the tunnel! Children of Kilbil from the tiny tots to the teenagers, you indeed are the buds and blossoms of Kilbil! We lack words to express how much you mean to us and how much we miss you! Your laughter and chatter! Your dashing and falling! Your bruising and yelling! Your romping and bumping! Your cheating and beating! Your fights and rights! Your complaints and witnesses! Your blames and claims! Your pulls and pushes! Your innocence and excesses! Your samples and examples! Your wonder and blunder! Your enquiries and discoveries! Your love and sacrifice! Your sharing and caring! Your smiles and hails! Your respect and reverence! Your ideas and innovations! Your originalities and creativities! Your highs and byes! were all missed out at Kilbil in this academic year!

In spite of all these we are together virtually. We meet you regularly though not all of us. We do communicate with you from time to time. Time being we need to be content with it and try to make the best out of it.

Though we are on difficulties every side not crushed as the human spirit is much larger than all the problems around us. Let us be optimistic enough to tide over even the pandemic COVID-19 with the human and divine help. Keep the spirit high we are almost through the tunnel!

Sr. Alinda Jose UMI - Headmistress
Kilbil St. Joseph's Primary School, Nashik.

Class Teacher's Desk

My dear children, a school is just not an educational institute , but, also a second home to you all, where the ‘ spark’ in you is recognised and guided towards right direction and brought into the ‘light ‘ of wisdom and knowledge. The process of your enhancement and development takes place , so that you can ‘ illuminate the world’ with what you have inculcated and learnt. This transformation of your journey towards gaining knowledge will help you become leaders and visionaries of tomorrow. We all look forward towards you as the future citizens of our nation who will ‘ illuminate the world “ .I.e. spread their knowledge and make the world not only a better place to live in , but, to be able to help people to realize, analyze and understand the holistic dimension of education being- - character building, increasing strength of mind, expanding intellect and ensuring to make human beings to take individual responsibilities of their own actions.Hence, wishing you all good luck to enlighten the world, that is,

“ SPARK A LIGHT -- ILLUMINATE THE WORLD “

BLESSINGS ALWAYS FROM ALL OF YOUR
RESPECTED PRINCIPAL & TEACHERS

Class photo 9th C

Academic Year 2020-21 Yearly Report

As we all know it was in the month of April that COVID 19 infected our beautiful motherland and so, for our own safety we went offline from the streets and markets and came online in a world of technology. and this became our new normal. So as every other School and Institute, our School too soon adopted to this new normal and commenced with online classes for 10th standard in April itself. While the students of standard 10th had a break during the month of May, The teachers took lots of efforts and attended webinars and worked tirelessly to enhance their technical skills. And soon the rest of the grades started with their online classes from 12th of June. Every year our school celebrates National events with ebullience and patriotism, and this year was no different. T-shirt Painting competition was held for the students of std 9th on 5th August to enhance the feeling of nationalism and showcase their creativity. Sayali Wani backed the 1st place in the same, while Anagha backed the 2nd place and Archana Pararekal backed the 3rd place. The occasion of Independence Day online program was conducted where in the students were shown short motivational films to make them understand the true importance of freedom, students performed dance and took a pledge to be a better citizen.

We celebrated teacher's Day with great zeal and zest on 5th September, 2020. A special morning assembly was conducted online in which the students expressed their love and respect for their teachers through songs, speeches, dances and the videos that they made. There was a special celebration for teachers which included games and riddles. The Principal Sr. Flora appreciated the sincerest efforts of the teachers in playing a catalytic role in the development of every student. To instil values in students a Value promotion week was conducted from 12th to 16th October in which the students made videos with the help of their parents promoting one value through their video. Webinars were conducted on 29th October 2020 for students and parents to explain the New Education Policy in a better way. A special webinar was conducted for the parents on the topic 'How to handle stress and teenage problems.' A value education webinar was conducted for the students to imbibe values like politeness, kindness, love, compassion and honesty. Diwali and Children's day was celebrated on 9th November. The celebration culminated with dances, prayers and speeches.

A day marking Childhood was celebrated with fun and frolic in our online class. It all began with a special school assembly where in the teachers made a video of their various performances in order to exhibit their love and affection for their children. It all ended with a special message by Principal Sr. Flora for the students. Like every year this also we had Diwali vacation from 10th November to 21st November to celebrate Diwali. A peace training and skill development webinars for teachers from 25th to 28th November 2020. An aerobic competition was conducted for std 7th, 8th, 9th and 10th to make the students understand the importance

of exercise and fitness in a fun way wherein class 9th C backed the 1st prize.

And so in this way though we all faced lot of difficulties due to this pandemic nothing, not even COVID 19 virus could hold back the enthusiastic Kilbilites. Amidst the pain that we continue to endure, we should find comfort in the stories of hope and solidarity and continue to see the value of positive, encouraging lessons that are emerging for our post COVID world.

The Yellows and Blues of Teenage Life

A teenager's life is full of choices. Choices between good or bad, friends or family, hobbies or studies, value centered life or not, this lifestyle or that lifestyle, etc.... So basically, it is full of confusion and chaos.

At the start of teenage, you feel really very good. You feel like you are finally big and mature and with everyone suddenly giving you attention, you feel like you are on top of the world! And the best thing about this is that you finally come to know who your real friends are. Then you slowly start to discover yourself - trying new things, experimenting. You feel like life just couldn't get better; with all your family and friends with you and so many good things! But tighten your masks as these were only the 'Yellows' of teenage

When the 'Blues' of teenage start, it's the start of confusion. The first thing which attacks you are the mood swings. You suddenly become emotional watching a movie you have seen 100 times already, then immediately you become angry and sad at the same time. The second thing in line are the changes happening in your body. For ex: height, weight, growth of certain body parts, etc. The third thing is choice. You have to choose between two things you love so much. That too, on your own. Your parents and relatives keep telling you that you're big now and take your decisions yourself.

The next thing you know, you're in the middle of a labyrinth of teenage with all the Yellows and Blues coming at you from either sides at the same time. But teenage is all about finding a different point of view. So, from my point of view, if you have your family and friends by your side, you can mix the Yellows and Blues of teenage and form a beautiful life Greens...

.....Jiya Sethi

WHO IS A DAD?

**A DAD IS SOMEONE WHO
WANTS TO CATCH YOU BEFORE YOU FALL
BUT INSTEAD PICKS YOU UP,
BRUSHES YOU OFF ,
AND LETS YOU TRY AGAIN.**

**A DAD IS SOMEONE WHO
WANTS TO KEEP YOU FROM MAKING MISTAKES
BUT INSTEAD LETS YOU FIND YOUR OWN WAY,
EVEN THOUGH HIS HEART BREAKS IN SILENCE
WHEN YOU GET HURT.**

**A DAD IS SOMEONE WHO
HOLDS YOU WHEN YOU CRY,
SCOLDS YOU WHEN YOU ARE WRONG
AND SHINES WITH PRIDE WHEN YOU SUCCEED
AND HAS FAITH IN YOU EVEN WHEN YOU FAIL.**

**THE PERSON WHO THOUGH NEVER RECEIVES THE
LOVE HE WANTS, BUT STRUGGLE'S FOR THE ONE
HE LOVES, IS MY DAD.**

- AAYUSH LOKHANDE

You Are Not Good Enough To Be Disappointed...

Dan John is a weightlifting coach. He is well-known in the fitness world for keeping things simple. (Dan John also has two first names. And you should always fear a man with two first names.)

Anyway, I recently heard Dan John say,

I often tell my new athletes: "Sorry, you just are not good enough to be disappointed."

In other words, in the beginning you need to get comfortable with feeling stupid, uncertain, and unskilled. You're not allowed to be disappointed by your amateur performance because you haven't developed the skills of a professional yet. It's only the professionals that are allowed to be disappointed because they have put in the work to be better

- J.K Rowling is allowed to be disappointed if she writes a bad book because she put in 20 years of work to get good.
- Kobe Bryant is allowed to be disappointed if he plays a bad game because he put in 20 years of work to become amazing.
- When he was alive, Jack La Lanne was allowed to be disappointed with a bad workout because he trained for 60 years to stay fit.

.But you and me? We're not good enough to be disappointed yet. We're bad enough to get to work. Bad Enough to Get to Work.

Bad Enough to Get to Work.

In the beginning, you're still learning. You're still developing. You're still building. You haven't developed enough competency to feel disappointed by your performance. You're supposed to feel stupid and unskilled.

The least right to feel disappointed are the ones who get down on of course, it's easy to forget to give yourself some slack when you're starting a journey that is important to you. Usually, the people who have themselves the most.

- We feel disappointed when we start a new job and don't do it as well as we would like.
- We feel disappointed when we set fitness goals for ourselves and don't reach them.
- We feel disappointed when we finally work up the courage to start our first business and it fails.
- We feel disappointed when we write our first book and nobody reads it.
- We feel disappointed when we pitch someone on our great idea and they don't care.

But the start is supposed to be a struggle. In fact, it's all supposed to be a struggle. The approach of professionals is an indication of just how strongly struggle is linked to success. The Richard Bransons and Jerry Seinfelds and Tom Clancy of the world see failure as a signal to recommit to the process, not as a reason to wallow in disappointment.

.And if that's the way that the best in the world approach their craft, then that's how you and I should approach our goals as well.

You're not good enough to be disappointed. You're bad enough to get to work.

-Sarthak D

BALI, INDONESIA

Bali is an Indonesian island known for its forested volcanic mountains, iconic rice paddies, beaches and coral reefs. It is mainly famous for its temples, and is also known as 'The Land of the Gods'.

Bali is well known for its pristine beaches.

Surfers love the waves at Nusa Lembongan near Nusa Penida. Nusa Penida is popular for Kelingking Beach, Atuh beach and Broken beach.

One of the famous dance of Bali is the Kecak dance. The Kecak dance is staged most dramatically in the open-air seating on a cliff, by Uluwatu temple

. Experience the unforgettable moments where the sun slowly lowering in the sea over the horizon beyond this beautiful temple serenade with Balinese most iconic art performance. The Kecak dance tells the story of Ramayana wherein prince Rama's wife, Sita, is kidnapped by Ravana

India the land of spices !!!

Spices are very important in food and as medicines. They bring out the unique and natural taste and are used to change the look of food to make it more attractive and colourful. Indians make use of spices to give a dash of flavours and taste to their dishes. Spices are used and imported from India since ages. India is blessed with varied climates, each of its states produce some spices or the other. Apart from adding flavours and Aroma to the food the spices also have many health benefits some health benefits of spices are:

1) Cinnamon: It helps to keep our heart healthy, it reduces high blood cholesterol levels and also is effective for low blood sugar.

2) Turmeric: It can reduce inflammation in the brain, it also improves the memory and reduces the pain and the swelling.

3) Ginger : It treats stomach aches, it can be e useful for the treatment of diarrhoea.

4) Garlic: It protects our heart, by eating garlic we can keep our blood vessels flexible, it can also reduce the cholesterol levels.

5) Basil : It boosts our immunity to fight diseases ,it can also reduce the blood sugar level.

- 6) Fenugreek : It is commonly used in Ayurveda, it is also effective for diabetes
- 7) Cardamom : It has many antioxidant properties and helps fight cancer.
- 8) Cumin : It has a rich source of iron ,it helps in the digestion, it can help with weight loss.
- 9) Poppy seeds : Are very good for digestion, they have many antioxidant properties.

Though these spices provide innumerable benefits they should be used carefully. Their excessive consumption may cause harm to health.

- Avanti Rathod

AMAZING FACTS

BEE VISITS MORE THAN 2 MILLION FLOWERS JUST TO PRODUCE A SINGLE POUND OF HONEY.

HIPPOPOTAMUS MAY SEEM HUGE BUT IT CAN STILL RUN FASTER THAN A MAN.

.DID YOU NOW, THE ANTS NEVER SLEEP! THERE ARE MORE THAN 1 MILLION ANTS IN THE WORLD FOR EVERY HUMAN BEING! JUST IMAGINE, HOW MANY ANTS SURVIVE IN THE WORLD!

TYPICAL OFFICE WORKS HANDS COME IN CONTACT WITH 10 MILLION BACTERIA PER DAY.

IT IS BELIVED THAT DINOSAURS LIVED ON EARTH UNTIL AROUND 65 MILLION YEARS AGO WHEN A MASS EXTINCTON OCCURRED.

THE INDIAN OCEAN RECEIVS 6,000 KILOMETERS OF RIVER RUN OFF FROM LARGE RIVERS LIKE THE GANGA AND BRAHMAPUTRA.

- Hrishikesh Hiray

Pollution

In today's world Global warming is the biggest threat for Human Lives. There are several measures taken for it but not everyone is aware of it, if we all try to stop these warming our future will be safe. The Ozone layer is also affected because of it. The only reason for this is Human Activities that are causing it. Not only the ozone layers and humans but animals are also affected due to this, the Ice Continent Antarctica is being affected the most because there is a large hole in the ozone layer and that is right above the continent. Hence a large part of the continent is being melted and the ice is breaking and causing disturbance in the ecosystem present there.

Deforestation is also a main issue we are facing and animals too because their habitat is being destroyed for our use. For now they are sufferers but in future we have to suffer for our own fault. Today on a very large scale deforestation is being done in the Amazon Rainforest which is the Lungs of the world, it produces at least 20% of oxygen. About 7,900 km² (3,050 sq miles) of the rainforest was destroyed between August 2017 and July 2018.

Fossil fuels can be the main cause for the Global Warming. Fossil fuels generate a great amount of energy for the Humans but they cause a great damage to the environment that can directly affect us. Asthma and other serious breathing problems are also the result of this air pollution. The excessive use of the fuels may cause a larger problems in future than it is now.

A Lot of factory waste is released in water bodies or is dumped there to keep the surrounding clean but the water bodies affect a lot then the other animals. Marine life has more diversity than any other ecosystem and then it is one of the largest suppliers of oxygen to the world but they are affected with the harmful chemicals and plastics.

- Avaneesh Joshi

GROW UP

I feel like a book full of mystery,
no one will ever know what I will be.

Somedays are both tough and fun,
while somedays are full of rain and
somedays are full of sun.

Growing up is hard,
People come in our life as wild cards.

Our friends are our lifeline,
having them by our side,
everyday will be just fine.

I try to venture the world of careers,
where there are no limits and
no barriers.

Growing up is hard,
People come in our life as wild cards.

To extend the limits and possibilities,
comes loads of responsibilities.

I don't know what I will be when I grow up,
All I know is whatever I do...My Name will
Glow up.

– Jennifer K. Irani

The Alchemists

We all have love in our lives . Sometimes it's love for a person, sometimes things. We all love , but there are few who let that love change them into something better. Few who alchemize this love into for one thing into kindness for many.

We know the stories of many such alchemists. One for instance, is of Dashrath Manjhi. He lived in Gehlore , a small village in Bihar. The Gehlour hills are a low-but-treacherous spine of mountainous terrain that once divided the settlements and services on either side. Once when his wife ,Faguni Devi, was traversing the narrow path across the hills , to bring him some water she was seriously injured. The nearest medical facility was over 40 miles away and Devi passed away shortly after her accident. It was his love for his dead wife that drove him to single handedly cut a road through the mountain. The road not only reduced miles of travel for countless village travellers, but it made traversing the area safer as well as allowing for small automobile traffic. It was his love, that he alchemized into kindness for his fellow villagers. Another story is of Murlidhar Amte. It was his love for his profession and for his cause that he turned into kindness for the sick.

Each person lives by his own principles. We all have our own vices and virtues. But what I think is that, kindness is the greatest virtue of all. We never know what battles a person is fighting , so the best we can do to help, knowingly or unknowingly, is to be kind . A person can be rich and charming and brave and courageous. A person can have all the colours of the rainbow, except , sometimes , one colour is —one of the brightest colours—ripped out. Kindness is that colour. You could be a colourful canvas but if you aren't kind , the canvas will never be striking enough. Dalai Lama once said, " Be kind whenever possible. It is always possible. " It's not that difficult to be kind. So always be a little kinder than necessary, not just to others but to yourself as well. Be kinder to the world. Won't it be wonderful to live in a world that is cushioned by kindness ?

- Ananya Bachchhav

Mount Everest should have been named after Radhanath Sikdar and not a Britisher

In 1865, the Royal Geographical Society named the highest mountain peak in the world as 'Mount Everest' after Sir George Everest.

In 1865, the Royal Geographical Society named the highest mountain peak in the world as 'Mount Everest'. It was named after Sir George Everest, who was the head of the survey and map-making organization Survey of India from 1830 to 1843. Sir George Everest died on this day in 1866.

Why is the name of Mount Everest not Mount Radhanath Sikdar?

In the year 1852, Radhanath Sikdar started the work of measuring the mountain peak named 'Peak 15'. At that time, Mount Everest was known by this name.

In the year 1852, Radhanath Sikdar started the work of measuring the mountain peak named 'Peak 15'. At that time, Mount Everest was known by this name.

With the help of a special device, Radhanath Sikdar recorded the height of 'Peak 15' at 8839 meters.

The British government tried its best to hide this information. Despite this, the great discovery of Radhanath Sikdar could not be hidden.

But in the whole world, it is famous as Mount Everest. The surprising fact is that George Everest himself never

actually saw Mount Everest. However, it is still possible to rectify this mistake by renaming it Mount Radhanath Sikdar.

There is no agency to name mountain peaks worldwide. But if the Indian government wants, it can try to change the name of Mount Everest with the help of Nepal, China and UNESCO.

- Aarya Swapnil Wagh

AUTOBIOGRAPHY OF A BOOK.

I am made up of pages that come from wood pulp. It takes a long time for me to come to my final shape. The trees are first cut down and wood pulp is prepared from them. Many other chemicals and raw materials are added to it. After a long period of processing, my pages begin to take shape.

These pages are then sorted and piled many words are printed on them. Sometimes pictures, maps, tables and figures are also drawn. Different colorful photographs are given a beautiful cover. I feel brand new and very smart the day I am given my final touch. I reach the book-stall and am placed on the display window overlooking the street. I can watch all the people go by. I can tell at one glance whether or not they will treat me well. I go into good hands, I remain clean and intact. I live for a long time. But if a careless person is by me, my pages are torn, and all sorts of rubbish are written on me. I feel very sad if this happens.

MY main aim is to give pleasure to whoever reads to me. I can become a very good friend of mine too, if I give him great enjoyment. I feel very beautiful and soft when I have poetry printed on me. The language of my text does not matter. All I want is that whoever holds me should treat me gently and with care.

Thankyou

- Aditi Panchakshari

God's own Country.....

Kerala was founded by Vasco De Gama . Before the name 'Kerala' came ,King Ashoka named Kerala as 'Keralaputra ,Kerala was formed on 31 October 1956.

The state was named as 'Kerala as the state had a wide range of coconut plantations.the word 'kera' means coconut. The capital of Kerala is Thiruvananthapuram.

- **ART-**

Kerala is famous for its art too.

- **PAINTINGS-**

RAJA RAVI VERMA- He was born on 24 April 1848 in Kerala.He was a great renowned painter,he is also known as the 'FATHER OF INDIAN painting he made many paintings such as the famous 'Skuntala' 'Tilotama& and 'Radha'

- **Martial ARTS -**

Kalaripayatu- ' kalaripayatu' also known as 'kalari.' parashuraman invented kalari. Kalari is practiced in the arts of battle field. Kalari is one of the oldest martial arts over 3000years old.

- **PERFORMING ARTS**

Kathakali is a 'story play' classical dance. Padmanabhan Nair is the father of kathkali. He was born on 7 october 1928,in Kerala. Kathkali is mainly performed by males rather than females.

FAMOUS

- Clothing - kasav sari ,mundu (dhoti)
- Food – Banana chips,Fish,Payasum.
- Spice – Black pepper.
- Festival – onam, vishu
- Temple – shree padmanabha swami temple, guruyaur temple,
Sabri mala.
- Rivers – periyar ,pumpa.
- Bird – The great hornbill .
- Animal -Elephant.
- Flower – Golden shower tree.

Facts

- India First Mosque was made in Kerala.
 - Kochi is known as queen of Aribean sea.
 - 100 percentage literacy is observed in Kerala sine 1991.
- Kerala covers only 1 percent of india.
- Idukki is known as the spice garden of india.

Idukki- it is said that one can find any spice in the idduki spice garden.

Onam- Onam festival is a festival of Hindus and open to all religions as it is said that king mahabali comes and visites the kingdom and it is also said that he was a great king and loved his subjects more than any one . And therefore there is no religion barrier and in the festival of Onam everyone.

You're
Amazing

यदि आप के चंद मीठे बोलों से
किसी का रक्त बढ़ता है तो
यह भी रक्त दान है ।

यदि आप के द्वारा किसी की
पीठ थपथपाने से उसकी
थकावट दूर होती है तो
यह भी श्रम दान है।

यदि आप कुछ भी खाते समय
उतना ही प्लेट में ले कि
कुछ भी व्यर्थ ना जाए तो
यह भी अन्न दान है।

FULL OF HONOUR

TEACHER'S CORNER

Oh! River Beas keep flowing.....

Oh! River Beas keep flowing
Until you reach your destiny
Wherever it may take you
Keep flowing come what may.

You flow down the mountains
Sliding smoothly through the valleys
Flowing through the plains and towns
Sometimes straight and sometimes
round the way

You dash over the wide stones
Flowing down the hard rocks
Furiously down the waterfalls
Yet you keep yourself tender and kind.

You start from the glory of Himalayas
Flowing down caressing the earth
You give life to those on the shore
You preserve life deep within.

You satisfy everyone as you flow
Be it any one with life
Spreading happiness all around
And smiles to the faces that frown.

Challenges never bothers you
You keep flowing never stopping
Ever happy with what you are
Flowing down singing melodies.

You flow through the broken depths
Through the forgotten unknown places
Through the meadows and downhill
Keeping yourself calm and quite.

River Beas keep flowing
Until you wash your eyes with the sea
Merging with the marine your destiny
Immersing in the blue heaven of
luminous waters.

Sr. Dhanya
Treasurer

BELIEVE IN YOURSELF

“Believe in yourself.

Believe in your capacity to do

Good and great things.

Believe that no mountain is

So high that you cannot climb it.

Believe that no storm is so great that you cannot

Weather it. Believe in YOURSELF.”

Dear children it is a fact that how much we can do and achieve is always decided by us. Hence, never underestimate yourself to do something or to achieve. The truth is we our self limit our own capacities of doing particular tasks. Before we do something we begin to tell ourselves “ I cannot do this” or “ I am not capable to do this...”

Always begin by telling yourself that--- “ I can “ and “ I will do what ever is to be done or is expected from me.” Never limit your vast horizon of thinking, because untill and unless you go ahead and do something, how will you come to know whether or not you can achieve and succeed and if you fail to do something, dosen't matter because that failure will also teach you to understand your weaknesses and help you to improve and do things in a better manner in your next attempt. Late APJ A.Kalam said--” If you fail never give up because FAIL means First Attempt In Learning.”

-Tr. Rachana

Dear children,

I feel so glad to interact with you through this E magazine! You are in the most wonderful stage of life – Adolescence! An age where along with exploring the world around you, you are on a trip of Self exploration! A child on the way to find himself; Wow! It's ages since we went through the same – fears, confusion, realizations, heart breaks, firm friendships, secrets, pressures and the 'Eureka moments'. A time to take risks, fail or succeed...tears or smiles! But keep trying new adventures ... be ever willing to take up challenges. This is the most appropriate age to learn "the never give up" strategy. Remember, 'A ship in harbour is safe –but that is not what ships are built for.' You were not created to be harboured- you were rather created to sail through "rough and smooth waters!" Find the shore and shout your lungs out- Be happy. Celebrate your victory. Each small success needs to be celebrated. In case, you fail- don't worry , be brave for Courage doesn't always roar. Sometimes courage is the little voice at the end of the day that says "I'll try again tomorrow." This is the time to be strong. Persevere. Dream. Get down to make your dream come true. Hardwork is rewarded. Invest in firm and trustworthy friends. They are a 'rainbow' in your life. Love your parents. They are firm rocks on which you can stand in times of 'floods'. Lean on your gurus for they have woven the fabric of your life along with your parents. Value life and be thankful to the Almighty for loaning it to you- Make the most of it adding studded jewels to it and go forth and shine in the World. Reflect the values and spread love around. All the best.

Live simple but a value packed life. Make India proud of you.

- With fondest love
Mrs. Kanta Pathre

ME YEAR 2020

I came to this world, fully prepared with armor of adversity and distress to battle with the enemy. The enemy who is the reason for devastating Mother earth by exploiting all her natural resources and brutally taking away the lives of other creatures to satisfy its needs. The enemy is Human Being and perhaps his needs have changed into his greed. Incessantly he has been utilizing the natural resources and hunting the animals to satisfy his never ending wants. He is ambitious, egoistic and ready to do anything to achieve his goals. And I am here on the mission to breakdown this egoist race.

But mere fatal accidents and natural calamities were proving insufficient to bring down human race-. So I discovered something horrific to bring this race down on their -knees. I brought tiniest and deadliest virus with me. Since, last few months I am battling with Mankind to succumb him.

But all my efforts are being countered well. It is becoming impossible to subdue this intelligent race. Naturally -, after all Man is considered the wisest creature of Almighty. My deadliest weapon has put lot of restrictions on Man. But every time like a Phoenix, he gets revived. I have put him in the lockdown- he found time to explore his inner skills. I asked him to maintain social distancing- he is Standing United through Social media. I stopped all the eateries- he transformed his kitchen into restaurant. I tried to fill his life with agony and sufferings- he raised many hands to recover. It is very difficult to beat this race because it is knowledgeable and very well knows how to adapt in adverse circumstances.

Mankind doesn't allow any torments to deplete his energy. "It is going to be hard and hard doesn't mean impossible....." These words rightly describes, Man's never give up attitude. His clinching to hope is unbelievable. And this iron resolution of man is forcing me hard to give up soon.....

My only message to this marvelous man is YOU can't empower and rule over Mother Earth. It belongs equally to all the creatures living on it. These creatures in your vicinity are meant to be taken care of and not to be killed -mercilessly to fulfill your desires. Don't be cunning and make me come at you harder. You are blessed with generosity, kindness and most importantly intelligence. Use your skills meticulously to prosper Mother Earth.

May God save you from this Virus.....

- Tr. Savita Diwate

मैत्र जीवांचे

मैत्रीची ताकद आपल्या सगळ्यांना माहीत आहे. उदात्त मैत्रीची अनेक उदाहरणे आपण ऐकल्ली आहेत. मैत्रीखातर आपण काहीही करायला तयार होतो पण आपण एका अत्यंत जीवाभावाच्या मित्राला अनेक वेळा विसरून जातो.तो मित्र म्हणजे आपण स्वतःच.

आपणच आपले मित्र होऊ शकलो तर किती छान होईल! मित्र मित्राला संकटकाळी निःस्वार्थीपणे मदत करत असतो त्याच्या पाठीशी खंबीरपणे उभा असतो.गुणदौषासकट मित्र एकमेकांना स्विकारतात तसेच आपणच स्वतःला आहोत तसेच स्विकारून स्वतःवर प्रेम करून परखडपणे गुणदौषांची चिकित्सा करून स्वतःच्याच मनाशी संवाद साधला तर.

हो आपण है कॉशल्य आत्मसात केले तर बहार येईल, आपण अर्थपूर्ण आयुष्य जगू शकू. स्वतःच्या विचारांशी,भावनांशी आपण प्रामाणिक असलो तर कोणत्याही खडतर परिस्थितीला आपण तांड देऊ शकू-स्वतःची बलस्थाने व कमकुवतपणा माहिती असेल तर नैराश्याची मभळ आल्यावर स्वसंवादाने त्यावर मात करता येईल. स्वतःच स्वतःला प्रोत्साहन देऊन जगण्याची उर्जा मिळवता येईल.कधीतरी दाटून येणारे एकाकीपणाचे काळे ढग या सैरीच्या जौरावर दूर लोटून स्वच्छंदी जगण्याचा आनंद घेता येईल.

तर चला लयार होऊयात स्वतःशीच मैत्री करायला..

“A good READER today will be a good LEADER tomorrow”

Reading is a basic tool to be knowledgeable. It can be a Novel, a Magazine, a Newspaper or on that note it can also be your Subject Books. All that you read will definitely help you some time, somewhere. Reading will never go unused. It enhances your vocabulary. Reading for learning and enjoyment is never a race so don't rush, instead take your time and nurture your reading skills at your own pace. Do not get discouraged if you are a slow reader especially at first. Each day as you read your reading capacity and understanding will increase and help you to apply it to real life.

Here are some tips to start with

- Make reading a part of your daily schedule.
- Consider reading with reference to your hobbies as reading becomes more interesting when we read about topics that we like.
- Just don't stick to reading in one language eg.English.You can also read things which are there in your Regional or National language they are also equally important.
- In this present scenario of lockdown and you being at home you can consider an e-reader like Kindle, Google Books or on that note you can also make use of our School's E-Library which is sent across every month.
- Maintain a record of all that you have read. Make points so that you can refer to them later.

So my dear students start preparing yourself to be a good leader by being a good reader .It's never too late.....

Rupa Fernandez
Librarian

“THE ONE WHO CAN CHANGE
YOUR LIFE IS YOU”

The motivation to nourish another
is never to receive nourishment in return.
It's really extending yourself to acknowledge a fellow
human being.
It is an act of kindness deeply rooted in love—
a love for all humanity.
It says that you honour and respect all people.
Nourishing others also shows that you bring
understanding into every situation.
It has the life potential to bring peace to our planet.
The best way to change another person is to change
yourself.
Your own behavior and attitude are the only things
completely
under your control.

Tr. Esmie Almeida

Learning during covid-19

Online learning is not a new phenomenon in higher education, especially in the distance education sector. Even for residential, campus-based HEIs, some of them often adopt an online learning mode as part of their blended learning ecosystem. Since its incipient days of electronic education (e-education), which saw electronic mail (email) become a disruptive technology, and its mid-point time that witnessed the learning management system become a legacy learning technology of choice, online learning has radically evolved. However, the uptake of online learning varies with individual HEIs and with individual countries.

Rather, it is intended to provide a brief characterization of the differences between online learning and emergency remote learning to situate the paper's argument about how selected HEIs responded to the COVID-19 pandemic. So, it is not a standard review of related literature, but an at-for-purpose overview of these two learning concepts in the context of COVID-19, as presently there has not been any precedent to the current coronavirus situation

- Neil Khare

The Three P's - Positivity, Patience and Perseverance

The Three P's will act as your trident sword and will wedge away your misery and troubles. They are the foundation pillars for your success. These three remarkable qualities can create a drastic change in your thinking, lifestyle, work life and overall well being. They are the key to a content and tranquil lifestyle. How? Let me show you.

Positivity:

Positivity by definition means the practice of being positive and constructive in attitude. Positivity is that frame of mind where you enjoy the present moment, devoid of any negative thoughts. One focuses on doing and achieving, not on thinking about the past and about difficulties. It is a state of being happy, tolerant, good-natured while approaching the highs and lows in life with a pragmatic and optimistic perspective.

It is that positive thinking that helps with stress management, and leads to better health. You know what they say, health is wealth. Optimism is the key to one's well being as opposed to pessimism. A positive mindset means that you have a positive expectation that things will turn out well and that you will succeed. It gives you more courage to try and persist with diet and lifestyle.

changes than if you have a negative mindset. Positivity will help you look at every difficult situation in life, with an optimistic attitude, help to overlook the problems and guide you to the path of answers.

“Positive anything is better than negative nothing.” —Elbert Hubbard

Patience:

The ability to wait, or to continue doing something despite difficulties, or to suffer without complaining or becoming annoyed. In short, it is the level of endurance you have before getting frustrated. Having patience means being able to wait calmly in the face of frustration or adversity . So where there is frustration or adversity we have the opportunity to practice patience.

Patience puts us in direct control of ourselves. And there is no more powerful aid to success than self-possession. When we are patient, we give ourselves time to choose how to respond to a given event, rather than get emotionally hijacked by our emotions. It allows us to stay gathered no matter what is happening. Patience is essential in daily life—and might be the key to a happier one.

“To lose patience is to lose the battle” - Mahatma Gandhi

Perseverance:

Perseverance means to put in continued effort to do or achieve something despite difficulties, failure, or opposition. It is to persist in a state, enterprise, or undertaking in spite of counter influences, opposition, or discouragement. Perseverance is persistence in sticking to a plan. Perseverance also known as hard work is working intelligently and vigorously at a given task to complete it with maximum efficiency.

Perseverance is the one of the means to achieving success; it teaches us discipline, dedication and determination. Perseverance is essential because it is only through hard work and determination that we can achieve the goals of our life. It is important because it is the key to success, but only hard-work , without purpose and direction is not enough.

You must know whatever you are doing is going on the right path. Hard-work increases your strength, capacity and self-confidence which helps you to achieve your goals.

“Great works are performed not by strength but by perseverance.” - Samuel Johnson

Positive, patient and persistent people have more energy and are more self-confident and hopeful. Because of this they tend to set higher goals and expend more effort in order to reach their goals. They see multiple solutions to problems and make better decisions. As they say, if you keep persevering long enough, you will achieve your true potential.

The road to success is a slow and quite precarious journey at times. But chanting this three P' mantra will make that journey less weary and more pleasant.

~ Lisha Bane

ज्ञान दिप-काळाची गरज

शिक्षणाचा प्रसार पुरुषांबरोबर महिला व समाजातील सर्व घटकांना होणे ही काळाची गरज होती। यात ज्योतीबा फुले व सावित्रीबाई फुले यांचा मोठा हातभार होता. या शिक्षणाबरोबरच ज्योतीबा फुले व सावित्रीबाई फुले यांनी सती सारखे परंपरेचा विरोध करून ही रूढी कायमची मोडून काढली. शिक्षणाचा प्रसार सुरू झाल्या पासून सर्वांना रोजगार उपलब्ध झाला. जातीभेद कमी झाला.

जेव्हा शिक्षणाचा प्रसार नव्हता तेव्हा महिलांसाठी फक्त चूल व मूल होते पण आता स्त्रिया पुरुषांच्या खानद्याला खानदा द्युन देशाला प्रगती व उन्नतीचा मार्ग दाखवत आहे. शिक्षण ही माणसाची प्रथम गरज आहे. देशाची प्रगती ही फक्त साक्षरतेचे प्रमाण वाढल्याने होईल. असे म्हणतात घरातली एक बाई शिकली की पूर्ण घर शिक्षित होते. म्हणून मुलींना शिक्षणासाठी प्रवृत्त करा आज पण काही गावांमध्ये मुलींना शिकवत नाही, यामुळे आपला देश काही प्रमाणात मागे पडतो. आपण जागृत राहायला पाहिजे व त्यांना जागृत केले पाहिजे.

- Bhakti Gokhale

Importance Of Music

Music is a part of all of our lives, from when we're growing up to when we're old. We grow up to the sound of our mothers singing us lullabies so that we'd go to sleep. Music is one of the most calming and soothing things if you let it be. It comes from melodies and tunes strung together by people who sing and play musical instruments. The power of music shows in the simplest of things, such as when you absentmindedly tap your foot to a beat or hum a tune unknowingly. Music can raise someone's mood, get them excited, or make them calm and relaxed. Music also - allows us to feel nearly or possibly all emotions that we experience in our lives.

Music is not only created by people, but it is also all around us in nature. In the mornings, when the crickets and the birds chirp, it is music. The loud sound of the waves in the ocean swishing, the whistle in the wind, and the sound of trees and leaves rustling are all their own forms of music.

Music is something that we all enjoy in the course of our lives. It is the sound that is brought together through a harmony of instruments and singing voices. It is something that is part of us ever since we enter this world. Our mothers, fathers and grandparents sing us lullabies so that we can sleep peacefully. In the mornings, we listen to the birds chirping and the leaves of plants and trees rustling, and even this is like music to our ears. Music is everywhere, and all you have to do is open up your ears to hear it.

Those who know how to create music using instruments and their own bodies are called musicians. There are different kinds of instruments - percussion, string, brass, woodwind and piano/keyboard. Percussion instruments include drums, bongos, the triangle, tambourine, tabla, dholak, etc. and they are the ones responsible for giving the main beat to a song. String instruments include the harp, guitar, cello, violin, etc. and they give rhythm to the music.

When musicians put one or more of these sounds together in harmony, it creates what we know as music. However, that's not all to it; music can be even one of those instruments, such as the strumming of a guitar, a melodious tune on the piano, a catchy beat on the bongos, etc. When you add another voice to an instrument, it is called singing and is a vital part of the music. When people who play different instruments come together to play them together, it is called a band.

There are many different genres of music, too, such as rock, pop, classical, blues, jazz, R&B, hip-hop, etc. All of these genres of music are characterized by how the instruments work together. For example, rock music is often louder and has more pronounced percussion and string instruments, while jazz is a genre where the saxophone is very prevalent. In today's world, we see a lot of combinations of genres such as pop-rock, classical rock, etc. One of the newest genres of music is electronic dance music (EDM) which consists of loud percussive beats and is very popular to young people.

They say that music is a universal language, meaning that you don't necessarily need to understand the words in a song to enjoy the music. In this way, music connects people all over the world with its universal language. I love listening to music especially because of this reason. Music has the power to unite people, make us feel at peace, make us feel understood; it is something to dance to, bond over, and even listen to when alone. Music is not just sound, it is its own language and it communicates so much; it is a beautiful thing.

-Atharva Lokhande

Inspiring The Youth

Our nation, India has the highest number of youth population in the world. By the end of 2020, more than 64% of youths would be in the Working Age. Therefore, the future of our nation is literally dependent on our youths due to their immense potential. All of us know that this pandemic has put a full stop in every nation's development. There is scarcity of employment, there are problems in businesses, GDPs of almost every nation have dropped and also the world is in a fix due to lack of funds. After this pandemic, every nation would be in a rat-race with each other to surpass the other. Likewise, for our nation to emerge on the top, a lot is dependent upon the youths. Here's how we can inspire them:

1. Identifying the issues that hold them back -
There are a lot many reasons that hold them (the youth) back. They need to be identified as soon as possible and worked upon.

2. Connecting with them -
Nowadays, the youth does not want to spend time with their family, friends and relatives. They just love to be alone. This problem needs to be addressed. I think lack of love and affinity is the main cause for this.

3. Giving opportunity to the youth:

We must include youth in any planning or program. It brings out the best out of any person.

4. Providing empowerment :

Empowerment is one of the most important things that a youth should have. It creates equal opportunities for both, male and female.

5. Providing professional development:

The youth should be given assignments, group projects and made listen to motivational speakers.

6. Use of Social Media:

I don't think there's any harm in using Social Media. Instead it is a great way to interact with our friends. Our youths must use Social Media.

Our youngsters must decide what they have to do in their life. Swami Vivekanda once said, "To Succeed You Must Have Tremendous Perseverance, Tremendous Will. 'I Will Drink The Ocean', Says The Persevering Soul; 'At My Will Mountains Will Crumble Up'. Have That Sort Of Energy; That Sort Of Will; Work Hard And You Will Reach Your Goal!"

– Sarthak Sonawane

आई

आत्मा आणि ईश्वर यांचा संगम
म्हणजे आई.

ईश्वराला पडलेले एक गोड स्वप्न
म्हणजे आई.

बाळाच्या डोळ्यातील आस आणि
हृदयातला स्वास म्हणजे आई.

प्रेम आणि वात्सल्याचा पाझरत अखंड झरा
म्हणजे आई.

आयुष्याच्या पुस्तकाची न मिटणारी
शाई असते आई.

बालकाच्या जिवन बागवतील गुलाब
कमल अन जाई असते आई.

पृथ्वी वरील देवाचेच दुसरे रूप
म्हणजे आई .

A MOTHER LIKE YOU

**FOR ALL THE TIMES YOU HAVE BEEN THERE,
FROM THE DAY I WAS BORN.
YOU HAVE ALWAYS GIVEN ME COURAGE,
TO DO AS I PERFORM.**

**YOU CALL TO SAY HELLO,
YOU SEND ME NOTES THAT SAY YOU CARE.
AND WHEN WE ARE TOGETHER,
THE SPECIAL MOMENTS WE SHARE.**

**MOM, YOU MAKE THE GOOD TIMES BETTER,
AND HARD TIMES EASIER.
I LOVE OUR BOND THAT WE SHARE,
WHICH MAKES MY LIFE CRAZIER.**

**EVEN THOUGH I MIGHT NOT SAY IT,
I REALLY APPRECIATE ALL YOU DO.
SO POWERFULLY BLESSED IS HOW I FEEL,
FOR HAVING A MOTHER LIKE YOU.**

-PRATHA TILWANKAR

Online Classes

As we all know that because of this pandemic situation ie. Covid 19 we all are doing our schools/classes online. By doing online classes we save our time and efforts by not going to school personally and can utilize that time in some other work. There are very few rules that we have to follow in online classes. Students feel more comfortable to talk or discuss their doubts with Teachers in online classes. We can also get connected to online school anywhere in the world.

Everything has its advantage as well as disadvantages. By watching mobiles , laptops , computers or any other device for a long duration our eyes may get damage. We cannot talk or enjoy with our friends, We can't eat our lunch boxes together , it feels that there is wall between the two friends. Same thing with our teachers , the bonding between the teachers and the students are not so closed than the offline classes Thus , I feel that Offline school/classes are better option.

- Aayushi Mangesh Bhavsar

सुट्यांचा पाऊस

पडावा एकदा तरी सुट्यांचा पाऊस
सुट्टीची मनाला भलतीच हौस

खेळाव फिरावं नाचाव भरपूर
कधीतरी यावा सुट्यांचा पूर

सुट्टी किती छान
मजा करू तुफान

सुट्टीच्या आनंदात आले कोरोनाचें वादळ
वादळाला म्हणावे आतातरी ओसर

नको आहे आता मला सुट्टीचा पाऊस
ओसरला आनंद , फिटली माझी हौस

विचार करतो आता मी, कधी जाईल शाळेत
भेतिल का पुन्हा ते मित्र राहू आम्ही मजेत

- आयुषी मंगेश भावसार

प्रकृति

प्रकृति , वह प्राकृतिक वातावरण है जो हमें घेरता है, हमारी देखभाल करता है और हर पल हमारा पोषण करता है। हम हवा, जमीन, पानी, आग और आकाश जैसे प्रकृति के बिना पृथ्वी पर जीवित रहने में सक्षम नहीं हैं। प्रकृति में हमारे आसपास सब कुछ शामिल है जैसे कि पौधे, जानवर, नदी, जंगल, बारिश, झील, पक्षी, समुद्र , सूरज, चंद्रमा, मौसम, घास के मैदान , पहाड़ , बर्फ, आदि। प्रकृति का हर रूप बहुत शक्तिशाली है जो हमें नष्ट करने के साथ ही पोषण करने की क्षमता रखता है।

हर किसी के पास प्रकृति का आनंद लेने के लिए समय है। बढ़ती भीड़ में हम प्रकृति का आनंद लेना और स्वास्थ्य में सुधार करना भूल गए हैं। हमने अपने स्वास्थ्य फिटनेस के लिए तकनीकी उपकरणों का उपयोग करना शुरू कर दिया है। हालांकि यह बहुत सच है कि प्रकृति में हमें पोषण और हमेशा के लिए फिट होने की शक्ति है। अधिकांश लेखकों ने अपने लेखन में प्रकृति की वास्तविक सुंदरता और सुविधा का वर्णन किया है। प्रकृति हमारे दिमाग को तनाव मुक्त करने की क्षमता और हमारे रोगों का इलाज है ।

भगवान ने सब कुछ बहुत खूबसूरती से बनाया है। जिसे देखकर हमारी आँखें कभी नहीं थक सकती हैं। लेकिन हम भूल गए कि प्रकृति और मानव के बीच के संबंध के लिए हमारी प्रकृति के प्रति भी कुछ जिम्मेदारी है। सुबह सूर्योदय, पक्षियों के गीत, झीलों की आवाज़, नदियों, हवा और दोस्तों की खुशियों के साथ बगीचे में शाम के बाद यह कितना सुंदर दृश्य दिखता है। लेकिन हम अपने परिवारों के प्रति अपने कर्तव्यों को पूरा करने में प्रकृति की सुंदरता का आनंद लेना भूल गए हैं ।

अगर हम हमेशा खुश और स्वस्थ रहना चाहते हैं तो हमें अपनी मूर्खता और स्वार्थी गतिविधियों को रोककर अपने ग्रह और उसकी सुंदर प्रकृति को बचाने की पूरी कोशिश करनी चाहिए। पारिस्थिति के तंत्र को संतुलन में रखने के लिए हमें वृक्षों, वनों, जल और कई अन्य चीजों को सुरक्षा प्रदान करनी चाहिए। अंततः हम प्रकृति के वास्तविक उपयोगकर्ता हैं इसलिए हमें वास्तव में इसका ध्यान रखना चाहिए।

SPARK A LIGHT ILLUMINATE THE WORLD

There are so many sparks between the people and each one has a special quality which makes him different from another. Education is a spark that lights up people's minds and enlighten the world. Education is not the filling of pail but the lightning of a fire. The purpose of education is not to add anything from outside or to dispense degrees that enable a student to earn a living. Besides these external outcomes the purpose of education is to install the spirits of humanity and virtues to young mind so that they can grow up to become not just responsible citizen of the world but also leading lights that illuminates the world and humanity around them. Education should not be restricted just to dispense the curriculum in a mechanical fashion but must ignite minds.

Education does not mean just to be literate about books and academic education it includes many skills, technical moral and many more. Knowledge of things which is around us. Education is not just about developing the external appearance are character of person but also develops the individual internally from the soul. Education not just gives employment but develops the country soly, that means development of one country is the successful step on the path of making world illuminate with light of literacy.

**'EDUCATION IS THE SPARK WHICH LIGHTS AND
ILLUMINATES THE WORLD'**

- Viraj Hingmire

दोस्तों के साथ जिंदगी

Life is Good

जिंदगी जखमों से भरी है,
वक़्त को मरहम बनाना सीख लो,
हारना तो है एक दिन मौत से,
फिलहाल....

दोस्तों के साथ जिंदगी जीना सीख लो ...

The meaning of life

the meaning of life has no defination,
it's never the same,
how it's different,
makes it unique,
For every living soul,

My meaning of life is like a tree filled with leaves,
Some leaves falls and others don't,
Like million of star stuck in space,
Waiting to be discovered,
Like fire can cause war and peace,
But is there a meaning to it ?
Is there a meaning to your life?
I don't know you decide.

- Trushika Gokhale

कोरोना शाप की वरदान

गेल्या वर्षभरात कोरोना ह्या महामारीने संपूर्ण जगात हाहाकार माजवला आहे. संपूर्ण जग ह्या व्हायरसचा प्रतिकार करण्या साठी सरसावले आहे. मोठ्या प्रमाणात मनुष्यहानी आणि आर्थिकहानी झाली आहे. संपूर्ण जगच जणु काही ह्या दृष्टीचक्रात अडकलं आहे.

कोरोनाची सुरुवात प्रथमतः चायना ह्या देशा पासून झाली आणि म्हणता म्हणता संपूर्ण जगाला त्याने आपल्या विळख्यात घेतलं. ह्याचा प्रसार हा प्रामुख्याने थुंकीतुन, खोकला आणि स्पर्शातून होतो आणि अगदी झपाट्याने पसरतो. आणि बघता बघता त्याने लाखो बळी घेतले.

आपला भारत देशही ह्यातून वाचला नाही. भारतातही ह्याचा प्रसार अतिशय वेगाने झाला. आपल्याकडे पहिली लाट येताच अनेक लोकांना कोरोनाची लागण झाली, अनेक माणसे मृत्यूमुखी पडली. सर्व व्यवहार ठप्प झाले, सर्व शाळा आणि कॉलेजेस बंद, कार्यालये बंद, दुकाने बंद, कंपन्या बंद, रेल्वेगाड्या, बस रिक्शा आणि सर्व वाहने बंद, सर्व हॉस्पिटल्स कोरोनाच्या पेशंट ने भरली, अनेक खाजगी इमारती, शाळा, कॉलेज, कार्यालये, हॉल, ह्याचे रूपांतर कोविडसेंटर मध्ये झाले, ह्यापैकी अनेक लोक बरेही झाली.

ह्या कोरोना मुळे आपल्यावर आणि आपल्या समाजावर काय परिणाम झाला? ह्या समस्या कधी संपतील? काय आपण कोरोनावर मात करणार आणि त्याला कायमचा हरवणार आणि पुन्हा आपल्या पूर्वी सारख्याच परिस्थितीत येणार की पूर्वी पेक्षाही जास्त प्रगती करणार? ह्या कोरोनाने आपल्याला अनेक गोष्टी शिकवल्या? आपण काय शिकलो? आणि काय फायदा झाला?

तसे तर प्रत्येक रोग किंवा आजार हा वाईटच असतो, पण ह्या कोरोनाने आपल्याला अनेक गोष्टी शिकवल्या, जसे.. कायम स्वच्छता

बाहेरून येऊन हात स्वच्छ धुवावे, सामासिक अंतर ठेवावे, तोंडावर कायम मास्क असावे, बाहेरचे आणि उघड्या वरचे अन्न पदार्थ खाऊ नये, शिंकताना रुमाल ठेवावा, कामा शिवाय बाहेर न जाणे. सर्व नियमांचे पालन करावे.

प्रत्येक वेळी योग्य व काळजीपूर्वक वर्तन केल्यास व योग्य ती काळजी घेतली तर कितीही मोठा रोग किंवा कोरोना सारखा व्हायरस आपले काहीही नुकसान करू शकत नाही हा मोठा धडा आपल्याला शिकायला मिळाला आणि लवकरच आपल्याला कोरोनाची लस शोधण्यात यश मिळेल आणि भारतच नव्हे तर संपूर्ण जग कोरोनामुक्त होईल .

LA MUSIQUE EST LA VIE

La musique est un art qui joue un rôle vital dans la vie humaine.

Il existe différents types de musique
comme la mélodie, le classique, etc.

Il répand le bonheur et la joie dans la vie d'une personne. La
musique est l'âme de la vie et nous donne
une immense paix. En composant ou en écoutant de la musique,
on a tendance à oublier tous ses soucis,
ses peines et ses douleurs.

La musique est un son agréable qui est une combinaison de
mélodies et d'harmonie. La musique désigne
également l'art de composer des sons aussi agréables à l'aide des
divers instruments de musique.

MUSIC IS LIFE

Music is an 'art' which plays a vital role in human life. There are
various types of music like melody,
classic, etc.

It spreads happiness and joy in a person's life. Music is the soul of
life and gives immense peace to us.

While composing or listening music one tends to forget all his
worries, sorrows and pains.

Music is a pleasant sound which is a combination of melodies and
harmony. Music also refers to the art
of composing such pleasant sounds with the help of the various
musical instruments.

Life spend during lockdown

This deadly covid-19 virus is spread all around the world because there is no vaccine for this disease. Lockdown was only option with many countries. This lockdown was my first such experience where I had to stay at home for a long period . The moment when I heard lockdown I felt very happy because I won't go to school then.

On the first day of lockdown I play some outdoor as well as indoor games with my neighborhood friends. Then, after few days when I realized that the number of corona patients are increasing day by day I stopped playing outdoor games . As days passed , everyone including me , started taking more precautions to remain safe from this disease . I started watching television, reading books , doing some arts and many more .

My mother started to learn new delicious recipes and we enjoyed it a lot . And I learn many other household works and helped my mother . And I started reading some interesting book to pass my time . me and my family enjoyed staying home for some day then, as days passed, staying at home started giving me boredom. i felt like to go out and hanging out with my friends, but I was not able to do so. At this point , I realized how the birds in the cage and animals in the zoo must be feeling like. I felt very sorry to them ..

Salute to our doctors, workers, nurses and all government workers.

I watched news report , most of the time in the hope that some vaccine must have been developed for covid-19 . But Every time I got to know that it will take more 5-6 months for the vaccine to be developed. Then now I decided to learn something new from youtube

and I learned to do cooking and for this my parents Praised me a lot. I but very happy that I learned something new.

I also worked on my health and fitness . Day by Day I became more diet concious and ate food whichWould prove good for my immunity.I Spend some time doing exercise , meditation and yoga

Althrough this lockdown forced me to stay at home.on the another hand I felt happy to stay with my family for such a long period .Icould focus on my health. I learned many new things and developed my hobbies .I Just wished that the vaccine for covid 19 be developed very soon. and we all may live our old and happy life.

बळिराजा

शेतकरी हा जगाचा पोशिंदा आहे . तो दिवस भर आपल्या शेतात राबून खूप मेहनत करतो आणि सगळ्यांसाठी धान्य पिकवतो . शेती व्यवसाय हा पूर्ण पणे निसर्गावर अवलंबून आहे . पण शेतकऱ्यांनी पिकविलेल्या शेतमालाला बाजारात मिळणारा भाव हा अनिश्चित असतो . म्हणजे कधी कमी तर कधी जास्त . शेतकरी जे पीक लावतो त्या पिकाला कायम यश मिळेलच असं नाही . जय जास्त पाऊस पडला तर पिकांचे नुकसान होते . यामुळे उत्पादन घटून तोटा होतो असेच खूपच कमी पावसामुळे पण होते . यामुळे शेतकरी बऱ्याच वेळा कर्जबाजारी होतो . यातच विजेचे भारनियमनामुळे दिवसभर शेतात काबाडकष्ट करूनही रात्री आरामाच्या वेळी पिकांना पाणी देण्यासाठी जावे लागते . त्यात जंगली श्वापदे यांची भीती असते . यामुळे जगासाठी शेतकरी खूप महत्त्वाचा आहे . शेतकरी आहे तरच खायला मिळेल .

संगीत आणि आपण

आपले मन हे आपल्या शरीराचा खूप महत्त्वाचा असा भाग आहे. ते प्रसन्न आणि स्वस्थ असावे असे प्रत्येकालाच वाटत असते. मन स्वस्थ असणे म्हणजेच निरोगी असणे होय.

आपल्या मनावर कळत नकळत अनेक बाहेरील गोष्टींचा सतत काही ना काही परिणाम होत असतो. एखाद्या कर्कश आवाजाने आपले मन अस्वस्थ होते तर त्या उलट पक्षांच्या किलबिलामुळे तेच मन प्रसन्न होते. कानावर पडलेला कोणताही ध्वनी आपल्या मनावर परिणाम करतो हे निश्चित. त्याप्रमाणे संगीत हे सुद्धा आपल्या मनावर कधी अनुकूल तर कधी प्रतिकूल परिणाम करणारे असे आहे. सुमधुर गाणे ऐकल्यावर आपण आनंदीत होतो तर कर्कश गाणे आपल्याला फारसे रुचत नाही.

आपल्या आवडीनुसार आपण संगीताचे प्रकार ऐकत असतो. उदा. शास्त्रीय संगीत, पाश्चिमात्य संगीत, भावगीत, भक्तीगीत, वाद्यवादन इ... या प्रत्येक संगीत प्रकारचा आपल्या मनावर होणारा परिणाम वेगवेगळा असतो हे लक्षात घेतले पाहिजे. यापैकी प्रत्येक संगीताचा आस्वाद आपण योग्य दिशेने आणि योग्य प्रकारे घेतला पाहिजे.

आजच्या एकूण धकाधकीच्या जीवनशैलीमुळे अनेकजण आपले मानसिक स्वास्थ्य हरवून बसतात. उदा. मानसिक ताणतणाव, दुःखी मन, निरुत्साह, अति रागीटपणा, चंचल मन, आत्मविश्वास नसणे, भीती, मनाची खिन्नता, निद्रानाश, इ... अनेक गोष्टींनी त्रस्त होण्याचे परिणाम वाढले आहेत. अशा वेळेस वर सांगितलेल्या पैकी कोणत्याही संगीत प्रकाराची आपल्या आवडीनुसार निवड करून आपण स्वतःला नक्कीच आनंदी व शांत ठेवू शकतो.

थोडक्यात असे म्हणता येईल की, कितीही प्रकारचे उपाय करून आपण स्वतःला आनंदी, समाधानी ठेवण्याचा जरी प्रयत्न करत असून तरी त्यासोबत 'संगीत' ह्या गोष्टीला आपल्या आयुष्यात महत्त्वाचे स्थान दिल्यास तो नक्कीच एक उत्तम पर्याय ठरेल आणि आयुष्य सुरळीत होण्यास मदत होईल.

THE IMPORTANCE OF ART (BHARATNATYAM)

ART in its various forms is significant. Art shows the creative side of the person. Art is the medium of communication. You need no language to understand art. It can't be seen or touched but has to be felt from the heart. Art boosts our inner strength and confidence. It gives us joy and relieves our stress.

There are various art forms such as drawing, dancing, singing, cooking, reading, craft, writing etc. Dance is one of the forms of art and its significance being unavoidable. To move the body in rhythm with music is dance. Bharatnatyam is one of the classical dance of India originated from Tanjore, Tamil Nadu. Bharatnatyam is based on the Natya Shastra by Bharat Muni and Abhinaya Darpana by Nandikeshwara.

Bharatnatyam is poetry in motion. Bharatnatyam - Bha means bhava (expression), Ra means ragaa (music), Ta means taal (rhythm) and Natyam means dance. That means to express the themes with music and rhythm. Bharatnatyam is a combination of adavus, mudras (hand gestures), expressions. It helps us having mental and physical balance. It gives individual a sense of freshness and cheerfulness. It helps us to be focused and keeps our mind calm. Irrespective of the form, dance also make us disciplined.

Bharatnatyam is one of the most ancient art form. But even today it is loved by people because of its beauty and the fact that it is also adaptive to present times maintaining its traditional form.

अंधश्रद्धा : एक सामाजिक शाप

अजूनही आपल्या समाजावर अंधश्रद्धेचा पगडा दिसून येतो. केसात जट निर्माण झाली कि, त्या मुलीचा देवदासीत समावेश करायचा ही केवढी घृणास्पद गोष्ट ! केसांची निगा निट न राखल्या मुळे जट तयार होते, हे अंधश्रद्धा निर्मूलन समितीच्या कार्यकर्त्यांनी शहरात, तसेच खेड्यापाड्यात जाऊन लोकांना कितीतरी वेळा प्रत्यक्ष दाखवून दिले, तरी हे अज्ञानी लोक अंधश्रद्धा सोडायला तयार नाहीत.

अंधश्रद्धा हा मानवी समाजाला मिळालेला एक शाप आहे. अंधश्रद्धाळू माणूस आपली विचारशक्ती हरवून बसलेला असतो. 'श्रद्धा' ही मानवी जीवनातील एक अमूल्य ठेवा आहे. आई, वडील, गुरुजन यांच्याविषयीची श्रद्धा ही खचितच अभिमानास्पद बाब आहे. पण कोणत्याही श्रद्धेचा अतिरेक हा शेवटी अंधश्रद्धेत रुपांतरीत होऊन समाजाला हानिकारक ठरतो. बुवा, साधू, महंत, महाराज यांच्याकडून बसवल्या गेल्याच्या तरूण-तरूणींच्या शोकांतिकेच्या दुःखद वार्ता सतत आपल्या कानांवर येतात. तेव्हा लक्षात येते की, अजूनही आपला तथाकथित प्रगत समाज अंधश्रद्धेच्या निबीड अंधारातच चाचपडत आहे. या विज्ञानाच्या युगातही श्रद्धाळू मंडळी बुवांच्या चमत्कारांवर विश्वास ठेवतातच कसा, हे काही कळत नाही.

ग्रह, तारे, ग्रहण या सर्वांविषयीची शास्त्रोक्त माहिती आज विज्ञानाने आपल्याला उपलब्ध करून दिली आहे. तरी आजही ग्रहणविषयींच्या अनेक कल्पना आपण अंधश्रद्धेने जोपासत असतो. अंधश्रद्धा या केवळ अशिक्षित किंवा अल्पशिक्षितांतच असतात अस नाही, तर उच्चशिक्षित व स्वतःला विज्ञाननिष्ठ म्हणवणारी कित्येक माणसेही अंधश्रद्धेला कवटाळून बसलेली दिसतात. त्यामुळेच प्रगत तंत्रज्ञानाच्या आधारे बांधलेल्या नौकेची जलावतरण नारळ वाढवून करण्यात येते.

समाजमनाला वर्षानुवर्षे पोखरून टाकणारी ही अंधश्रद्धेची व्याधी नष्ट करायची असेल तर सामाजिक प्रबोधनाची नितांत गरज आहे. आपण सर्वांनी 'अंधश्रद्धा निर्मूलन समिती' सारख्या संस्थांचे कार्य नीट समजून घेतले पाहिजे. त्याच्या कार्यात यथाशक्ती सहभागी व्हायला हवे, तरच अंधश्रद्धेचा हा कलकं कायमचा पुसून टाकणे शक्य होईल..

A tribute to Sir Gene Deitch..... and creator meets creator

The death of film director Gene Deitch at 95 has left many feeling sad. The man was an institution and is best remembered for his work Tom and Jerry cartoons and the Popeye series.

Gene Deitch, the director of Tom and Jerry series of cartoons died at the age of 95. His work was so loved that his death seems like a personal loss to

to most viewers, who are part of the many generations that grew up watching his work. Deitch was the Oscar-winning illustrator, animator, and director and though most of us know him for directing the Tom and Jerry series, he also produced Popeye cartoons. Few recall that his movie Munro won the Academy Award for Best Animated Short Film in 1960.

Gratitude and appreciation for parents, teachers and Principal

Parents are prestigious gems in our life, without them we just cannot imagine our future. Parents sacrifice a lot for our happiness, with or without our knowledge. Parents shape our life. We may not always express how much we love our parents but surely we have a big place in our heart for our parents. During the pandemic too, they coped up with the present situation, kept the family together & took care of everything. They provided us all the facilities essential for the virtual, online classes. Along with them a special appreciation & gratitude is deserved by our kilbil school management and our principal sister flora. They have taken special efforts to provide us with best education in this situation. They not only focused on studies but also different co- curricular activities. From the webinars to aerobic exercise competition everything was enjoyed. We thank you dear sister principal & the school management. We would also like to than our teachers. For taking great efforts to provide us online education. They work 24x7 from their homes and they give their 100%. Really they are our mentors!!!

Thank you dear parents, teachers, sister principal and the school management for supporting us and providing us with the best.

- Pratham Zawar

WISHING YOU ALL "MERRY CHRISTMAS
AND A HAPPY NEW YEAR"

Together let's march forward to
celebrate christmas with high spirits
and step forward into the New Year with
new hopes and aspirations!
