Principal's Message

“As long as our ideas are expressed and thoughts kindled we can be sure of learning, as everything begins with an idea.”

My dear Parents, Teachers and Students, I was always attached to the thought Home is the first school and School is the second home. In fact, today it has come true. COVID 19 has altered our life including our school system, teachers, children and parents. Our homes have become school and parents have become teachers too. Unimaginable! Invariably it is happening. It's a fact we have to live with now whether we are rich or poor, far or near. E-learning has emerged as the best way of imparting education. It gives me great joy to meet you all through this e-magazine a great way to communicate and be creative.

Enjoy our magazine as we move on with our lives. I thank all who contributed to this endeavor.

Be assured that the Management, teaching and non-teaching faculty of the school is working towards making this lockdown a meaningful and fruitful one. We will leave no stone unturned in educating our Kilbil family. I remain grateful to all the parents and well-wishers for your priceless support and cooperation at this moment. My sincere advice to all the students – Do not lose HOPE. Concentrate on the Silver lining amidst the thickest and darkest cloud at present times. We, at Kilbil St. Joseph's High School, hope to see you all soon – refreshed and rejuvenated.

Till then **SPARK A LIGHT – ILLUMINATE THE WORLD.**

Sr. Flora UMI
Principal

Kilbil St. Joseph's High School, Nashik

Manager's Message

Dear Parents, Teachers and students,
“Good habits shape your future”

” So I am reminded of a little piece of wisdom from the life of Felice Leonardo “Leo Buscaglia” known as “Dr. Love”. There was a strange system in his family. At the end of each day, after everybody sat around the dining table, the father would ask each one, what they had learnt from the day. each one had to share something that they had learnt on that day and only then they could eat. So in case anyone of them in the family said, “No, today I learnt nothing”, it seems the father used to say,

“Let everything remain on the table, come lets go and open the encyclopaedia. Let’s learn something and come back to the table and only then we shall eat.” Leo used to think that he was a cursed child of a bad father who did not allow him to enjoy his dinner and rather demanded that he would have to tell him what he learnt on that day.

As life moved on, Leo became a motivational speaker and a professor in the department of Special Education at the University of Southern California. Today, when he listens to the standing ovation of lakhs of people for his excellent performance, he says, “But one thing has not changed; when I brush my teeth, and I come to the bed and lie down, I can still hear Papa ask me, 'Felice, what have you learnt for the day?'" All great people have a history of discipline and cool habits Yes, good habits shape your future. Keep learning something every moment. As infants, we're presented with a strange new world to discover. And wit nothing else to do, we dive in head first, devoting all our time to learning how to use our five senses. At first we appear completely hopeless, not even realizing that our arms and legs are parts of our body. But soon enough, we start figuring some things out. Within a few months, we learn how to recognize faces better than a computer can.

COVID 19 too taught us new learning. Right now, we see ourselves collectively facing this pandemic, a situation for which we had no experience and very little preparation. And, at this time when the whole world is battling against it, Kilbil St. Joseph has added another feather to its cap; the EMagazine, to provide a platform to our students to bring out their creative thoughts and expressions. My hearty congratulations and appreciations to the Principal and the teachers for their untiring effort in moulding the young minds and bringing Kilbil St. Joseph to its zenith. I also extend my heartfelt gratitude to all the parents for their continued support to our Institution and its endeavours. Dear parents, you have, indeed, walked an extra mile to ensure that your children make the best use of their time.

I pray that you and your children would enjoy the journey as you sail through this enchanted ocean of brilliance. I wish You all a happy and grace filled days ahead. May God Almighty keep us safe and healthy.

Sr.Alice Antony
Manager
Kilbil St.Joseph's High School

THE RESILIENCE OF KILBIL

Every Academic year is closed with great contentment and satisfaction of having achieved all what we have planned and aimed at. But alas! The academic year 2019-2020 came to an abrupt and inconclusive grinding halt on the 16th of March 2020. The reason a tiny Corona Virus originated in Wuhan China was transported to the entire world and finally came to pitch it's tent even in our beloved country India.

Though all of us were hearing a lot about this pandemic and the havoc it makes in various parts of the globe, we were rather comfortable thinking that it is oceans away and we are perhaps immune to it. But it caught us almost unaware when various states of our nation began shutting down. Finally, all educational institutions were asked to shut down indefinitely by mid March. The nation went in to an unprecedented complete lock down for 21 days, 19 days, 20 days, etc and then the onus was passed on to each state and thereafter each district, panchayat, locality, etc. The nation began to open up little by little, sector by sector from August 2020.

When the country went into a total lock down, we at Kilbil began to look for new vistas under the dynamic leadership of our principal Sr. Floropia to keep connected with our students, teachers and parents. Not even an iota of helplessness experienced at our end. Right away held the bull by its horns to harness and master the online literacy! As the usual 10th standard classes were on before the closure of the academic year and before the commencement of the new academic year the teachers had the opportunity to experiment their online efficiency right away and gain confidence. Almost throughout the summer vacation the management together with the staff was engaged in some or other form of online training and equipping themselves to grab the online opportunity as soon as the school reopens. Having girded with our loins, we did not shy away to reopen the school in the mid-June. Even after the reopening we continued with our online literacy from time to time, to update ourselves to fulfill the various exigencies of online teaching. My honest appreciation to the older folk to which I too am a part as we never kept ourselves aloof from this new challenge.

Nothing was missed out with the exception of the physical presence of one another.....The vacuum created by a condition like this was too deep and too wide to be filled in. Months on end we had not met each other. The children pined and the parents and the teachers groaned! An year long ordeal of a tiny Virus! The eager impatient long wait to see some gleaming light on the other end of the tunnel! Children of Kilbil from the tiny tots to the teenagers, you indeed are the buds and blossoms of Kilbil! We lack words to express how much you mean to us and how much we miss you! Your laughter and chatter! Your dashing and falling! Your bruising and yelling! Your romping and bumping! Your cheating and beating! Your fights and rights! Your complaints and witnesses! Your blames and claims! Your pulls and pushes!,Your innocence and excesses! Your samples and examples! Your wonder and blunder! Your enquiries and discoveries! Your love and sacrifice! Your sharing and caring! Your smiles and hails! Your respect and reverence! Your ideas and innovations! Your originalities and creativities! Your highs and byes!were all missed out at Kilbil in this academic year!

In spite of all these we are together virtually. We meet you regularly though not all of us. We do communicate with you from time to time. Time being we need to be content with it and try to make the best out of it. Though we are on difficulties every side not crushed as the human spirit is much larger than all the problems around us. Let us be optimistic enough to tide over even the pandemic COVID-19 with the human and divine help. Keep the spirit high we are almost through the tunnel!

Sr. Alinda Jose UMI - Headmistress
Kilbil St. Joseph's Primary School, Nashik.

Pillars of school

TEACHING AND NON TEACHING STAFF

YEARLY REPORT 2020-21

Learning gives creativity, creativity leads to thinking, thinking provides knowledge and knowledge makes you great.

In the voyage of the discovery of excellence in the field of education, our endeavor of keeping the values –love, peace, truth, non –violence and right conduct alive in our thought, world and action continues.

In the month of April the whole nation went through lockdown but we Kilbilites managed to get into online teaching for class 10th. Seen in the month of May webinars were conducted for all the teachers as to how they could develop their academic skills and to ensure that the students to develop their academic skills.

Staying updated is the key to success in any field especially in the field of education . Our teachers including our principal Sr. Flora constantly strive to stay update by attending workshop and various training programs.

As every year , this year too we celebrated our independence day with the same zeal . A special school assembly was conducted by the students. Patriotic song , dance videos were presented by them. By the end of the assembly every teacher gave a short message which inflated the patriotism feeling . On 5th September , we celebrated Teacher's Day where students expressed their gratitude towards their teachers. The charge of the assembly was taken by the students . They sang different songs , speeches were delivered , dances were performed and the videos were made by them .

The day ended by the Principal Sr. Flora's message who appreciated each and every teacher for their steady efforts .

Education must not only update us but also transform us. An integral part of the school curriculum, the human values program at Kilbil worked towards awakening intrinsic motivation to explore insights of mind and emotion. Value promotion week was conducted in the month of October in which students made videos related to values of love, truthfulness, honesty and punctuality. A Webinar, how to handle stress, was conducted for students and parents. Value education webinars were also conducted to imbibe values like –politeness, kindness, love, compassion and honesty .

Diwali and Children's Day were celebrated together in the month of November . Importance of Diwali, that the light of knowledge can remove the darkness of illiteracy was emphasized. A special assembly was conducted in each class by their teachers . All the teachers had put their hard work and love for their students by presenting a beautiful dance performance.

Staying healthy and increasing our immunity has become a must in this pandemic period. So, just to put into practice our school had conducted Aerobic competition for class 7th to 10th.

Maximum number of students participated and had set a good example of exercise and fitness in a fun way.

Towards the end , we thank our school Principal Sr. Flora , the supportive management whose continuous support to our ideology and education has enable the school to come this far especially in this pandemic period . Teachers and the entire staff deserves applause for their tireless efforts in implementing the route map of imparting quality education . We also extend my heart felt gratitude to parents who showed their unflinching faith in us by giving us the profound opportunity to transform their children into truly useful citizens in the future world.

A QUESTION APPROACH IN MY MIND WHAT IS 'PERSEVERE OR PERSEVERANCE'

P = Positive Start

E = Endure to the end

R = Remain in the race

S = Stay committed

E = Encourage yourself

V = Visualize the end

E = Exercise determination

R = Reach for your goal

E = Embark victory

What is Perseverance? Perseverance means 'Never Give Up', if we will give up then the whole life is wasted. Perseverance is not a long race; it is many short races one after the other. Great difficulties may be in your life but we should try- try and not cry. We will fail many times but one day we will succeed.

"Success comes from curiosity, perseverance, concentration and self - criticism" said by Albert Einstein. If we sit at one place and say 'I want success, we will not get success but yes when we will do hard-work with patience, we will not run after success, success will come to us. Thereby it is said that 'Perseverance is the key to success'

– Komal Chaudhari (VII A)

MY THOUGHT

Perseverance is a great element of success.

If you only knock long enough and loud enough at the gate, you are sure to wake up somebody.”

– Varun Choudhary (VII B)

PERSEVERANCE

What is perseverance? -Perseverance means not to give up, if you fail in something, don't just give up. Let's take an example of Shivaji Maharaj. Shivaji Maharaj's dream was of forming a state which was free from oppressive rule of Mughals, Siddhis and other invading armies. Shivaji Maharaj's idea for Swarajya was;

“REMEMBER, YOUR DUTY IS TO SERVE THE PEOPLE IN OUR STRUGGLE TO ESTABLISH A SWARAJYA, A STATE NOT RULED BY EXTERNAL POWERS”

He tried, at the age of 16 he captured his first fort “TORNA FORT”. After this fort he captured many forts and finally on 6th June 1674 he was crowned as The King Shiv Chhatrapati of Maratha empire. The treaty of Purandhar was a big setback for the dream of Swarajya, Shivaji Maharaj had to give 23 forts to the Mughals. Still he did not lose hope and reconquered all those forts again and expanded the Swarajya beyond. Shivaji Maharaj persevered great success in his life for Swarajya.

– Aradhya Andhare (VII A)

Perseverance is the key to success

Perseverance is continued steady effort to achieve a goal. No great work can be done without perseverance.

‘Perseverance is the key to success.’ It will always bring success . Musicians , novelists , painters , poets – all need perseverance for success. Genius is a gift of God and it is also a product of pains

Perseverance is much required in our ordinary walk of life. We can learn great lessons on perseverance from the activities of insects, like bees, ants and coral insects. We have also learnt this from the story of Robert Bruce and the spider which we have learnt in the kindergarten section.

As The great scientist Sir Isaac Newton had said, “To get success in life we need 45 % hard work , 45% perseverance , 5% intelligence and 5 % luck .”success in life is not easy . Our steps to success are full of thorns .Failures are just to tell us that we are just a little bit away from success. Perseverance teaches us not to lose heart and keep trying until you reach your destination . perseverance is the most important thing in a student’s life .

– Parthiv Nambiar (VII B)

Perseverance

Perseverance means to continue steadfastly, especially in something that is difficult or tedious. It requires regular practice to develop the quality of perseverance. Only a patient person with strong determination can achieve his goal by perseverance. When a child learns to stand up and tries to walk, he is bound to fall down again and again. And by nature, and instinct, he gets up, and again tries to step forward, although again he falls down. But ultimately, he succeeds in walking. The same thing had once happened with each one of us, when we were children.

Similarly, in spite of his repeated failures, a man having perseverance does not admit his defeat. He tries again and again, and finally attains success. A persevering person is one who has tremendous self-confidence, indomitable determination, and a natural urge towards hard labour, and untiring energy to continue till the last, without grumbling or expressing dissatisfaction.

– Shruti Thorat (VII C)

A vertical column of black silhouettes on the left side of the page. The silhouettes represent people in various poses, stacked on top of each other to form a human pyramid. The background is a gradient of orange and red.

Team Work

“Talents wins games but Teamwork and Intelligence Win Championship”
The world hasn't progressed by one person, a country is not ruled by one.

Team work is a value followed when one person cannot work. 1983 world cup final was not only won by Mohinder Amarnath, but Kapil Dev as well as the whole team contributed to victory. As the time progresses, situations come across and to face them, we have to follow certain values. Like now we are suffering from a corona pandemic, here we need to practice, patience, team work, understanding, helpfulness. We need to adopt ourselves in different situations. Before any problem its salutation arises first and then its Team work.

- Madhura Shirude (VII A)

A tall wooden ladder is positioned vertically, extending from the bottom left towards the top center of the frame. The ladder is made of light-colored wood with horizontal rungs. It is set against a bright blue sky filled with soft, white, wispy clouds. The perspective is looking up the length of the ladder, emphasizing its height and the upward direction.

SUCCESS

Behind every successful person there is an act and impact of being stubborn at one decision and practicing it. The word

Perseverance is pronounced differently in different languages but it results the same to everyone and anyone.

To be perseverant it is very hard without patience, consistency, and calmness. When Perseverance acts with Hard Work it gives the output as Success. " What exactly Perseverance means, and how does it work?"

A tall wooden ladder is positioned vertically, extending from the bottom left towards the top center of the frame. The ladder is made of light-colored wood with evenly spaced rungs. It is set against a bright blue sky filled with soft, white, wispy clouds. The perspective is looking up the length of the ladder, emphasizing its height and the vastness of the sky above.

Persistent in doing something despite difficulty or delay in achieving success. There are hundreds of interviews, thousands of books and lakhs of people telling about it in our life either we succeed or we experience, we only get the tag of failure when we lose our hope and patience.

There is quite a difference between losing and failing. Losing is when we lose a small step and failure is when we lose our dream.

- Ayush Teli (VII A)

FIND OPPORTUNITIES

“Don’t wait for the perfect moment, take a moment and Make it Perfect” To succeed in life 90% is hard work and 10 % are opportunities. Opportunities work as a backup in our life. We never get opportunities; we need to find opportunities and if we utilities them then, “Sky is the limit”. The current situation is a very good opportunity as we have understood our weaknesses and strengths. If now you wake up and work hard then further there will be no looking back. Some people dream of success but others wake up and work hard.

Chirag Sonawane (VII A)

Science

[A Blessing For Mankind]

Science has become very important in today's life .It plays an important role in almost every part of our lives. It has changed our life so much that today we can do nothing without science.

Our lives have become extremely easy with the help of science .In fact science can be called one of the greatest blessings of this age. It has brought everyone closer and also made our life very comfortable. Today we can go round the globe in a matter of hours. We can also talk to our relatives and friends across the world by just clicking a few buttons. Inventions such as washing machine, refrigerator, air-conditioner, dish-washer etc. make our lives very comfortable and easy especially for the housewives. Television, cinema and compact discs have changed the entertainment industry forever. Thousands of lives are saved everyday due to the progress of medical science. No industry or office can do without computers. In fact nowadays in this situation of pandemic the computers and mobile have become our need as we all meet everyone virtually and this has become possible only due to the progress of science. Science always deals with facts.

Apart from the benefits of science, it also has an ability to do both good and evil for mankind. However, science has brought a lot of misery upon humans. It has created diseases such as AIDS and cancer. Children who spend their much time in digital technologies which can impact their psychological and mental health .It is the need for this hour but we must spend less time being online as much as possible. Nuclear weapons can destroy our planet which is a curse for us .It is not impossible to remove at least some ill-effects of science. We must use it to make life better for humans and nature .We must also not pollute our planet or cut trees anymore. My interest in science arises from the deep desire to do something good for the people of my country and mother earth .We must only use science for its benefits. The biggest reward for the human will be the day when we can do something to make this world a better place to live in and a world which will be happier for all of us.

-Anushka Malpure
VII C

Demotivation

(Cause of failure)

“If Demotivation is taken positively then it is the best motivation to show the Demotivator that we can succeed.”

Generally we experience that when we try to do any new or extra ordinary things, People start telling us that “You can’t Do it “because some who is more eligible then you can’t do it . So, they consider that we also cannot do it. People stats comparing us with others. There is a very good story narrating the difference within our inner voice.

There were two very close friends one was of 10 years, and the other was of 6 years old. They were living in a typical. One day both friends were playing, and the elder friend fell in to the well, which was at the depth of 22 feet.

The smaller friend shouted for help, but no one could listen him because they came very far, and no one was there. The 6-year-old boy pick up the rope which was tied to a bucket to draw water from the well. He then immediately gave the rope to the 10-year-old boy and they both catch hold the rope and the small child with his 100% effort pulled his friend up and save his life. When thy told their parents about the incident.

No one believe them but the old man believe them, he told when the small boy was pulling the rope his aim was only to save his friend and no one was there to tell him that “you are small so you cannot do it ”.

We should always first listen to our inner voice and then to others.

And we should only listen when the person has a specific reason that way, we cannot do it. If Bill gate's father would have told him that you cannot do it so can we have Microsoft Windows today? If the husband of Anandi bai Joshi would have told her that women are not allowed to educate, so can we get India first woman Doctor.

Between success and you there are only to walls, first is Me-Myself & the second is Others, if the first wall is cleared half of the way is cleared.

- Atiksh Kachalia VIIC C

Benefits of 'YOGA'...

WEIGHT LOSS:

SUN SALUTATIONS AND KAPAL BHARTI *PRANAYAMA* ARE SOME WAYS TO HELP LOSE WEIGHT WITH 'YOGA'. MOREOVER ,WITH REGULAR PRACTISE OF 'YOGA', WE TEND TO BECOME MORE SENSITIVE TO THE KIND OF FOOD OUR BODY ASKS FOR AND WHEN...

STRESS RELIEF:

A FEW MINUTES OF 'YOGA' DURING THE DAY CAN BE A GREAT WAY TO GET RID OF STRESS THAT ACCUMULATES DAILY – IN BOTH THE BODY AND MIND. 'YOGA' POSTURES ,PRANAYAMA AND MEDITATION ARE EFFECTIVE TECHNIQUES TO RELEASE STRESS..

INNER PEACE

WE LOVE TO VISIT PEACEFUL, SERENE SPOTS, RICH IN NATURAL BEAUTY. LITTLE DO WE REALIZE THAT PEACE CAN BE FOUND RIGHT WITHIN US AND CAN TAKE MINI-VACATION TO EXPERIENCE THIS ANYTIME OF THE DAY BY PRACTISING 'YOGA'...

☐ **BETTER RELASIONSHIPS**
'YOGA' CAN EVEN HELP YOU IMPROVE YOUR RELATIONSHIP WITH YOUR SPOUSE, PARENTS, CHILDREN, FREINDS OR LOVED ONCE!! A MIND THAT IS RELAXED, HAPPY AND CONTENTED IS BETTER ABLE TO DEAL WITH SENSITIVE RELATIONSHIP MATTERS...

☐ **INCREASED ENERGY**
DO YOU FEEL COMPLETELY DRAINED OUT BY THE END OF THE DAY?? SHUTTLING BETWEEN MULTIPLE TASKS THROUGH THE DAY CAN SOMETIMES BE QUITE EXHAUSTING. A FEW MINUTES OF 'YOGA' EVERYDAY PROVIDES THE SECRET OF FEELING FRESH AND ENERGETIC EVEN AFTER A LONG DAY...

☐ **BETTER FLEXIBILITY & POSTURE**
YOU ONLY NEED TO INCLUDE 'YOGA' IN YOUR DAILY ROUTINE TO BENEFIT FROM S BODY THAT IS STRONG, SUPPLE AND FLEXIBLE. REGULAR 'YOGA' PRACTICE STRETCHES AND TONES THE BODY MUSCLES AND ALSO MAKES THEM STRONG....

THESE ARE ALL THE BENEFITS OF YOGA'.. WHICH CAN REALLY MAKE YOUR LIFE MUCH MORE HAPPIER THAT THE FIRST..

**Sejal Patil,
VII C**

PERSEVERANCE

**“HAVE PATIENCE AND DON'T LOOSE
HOPE, JUST HOLD THE
PERSEVERANCE ROPE”**

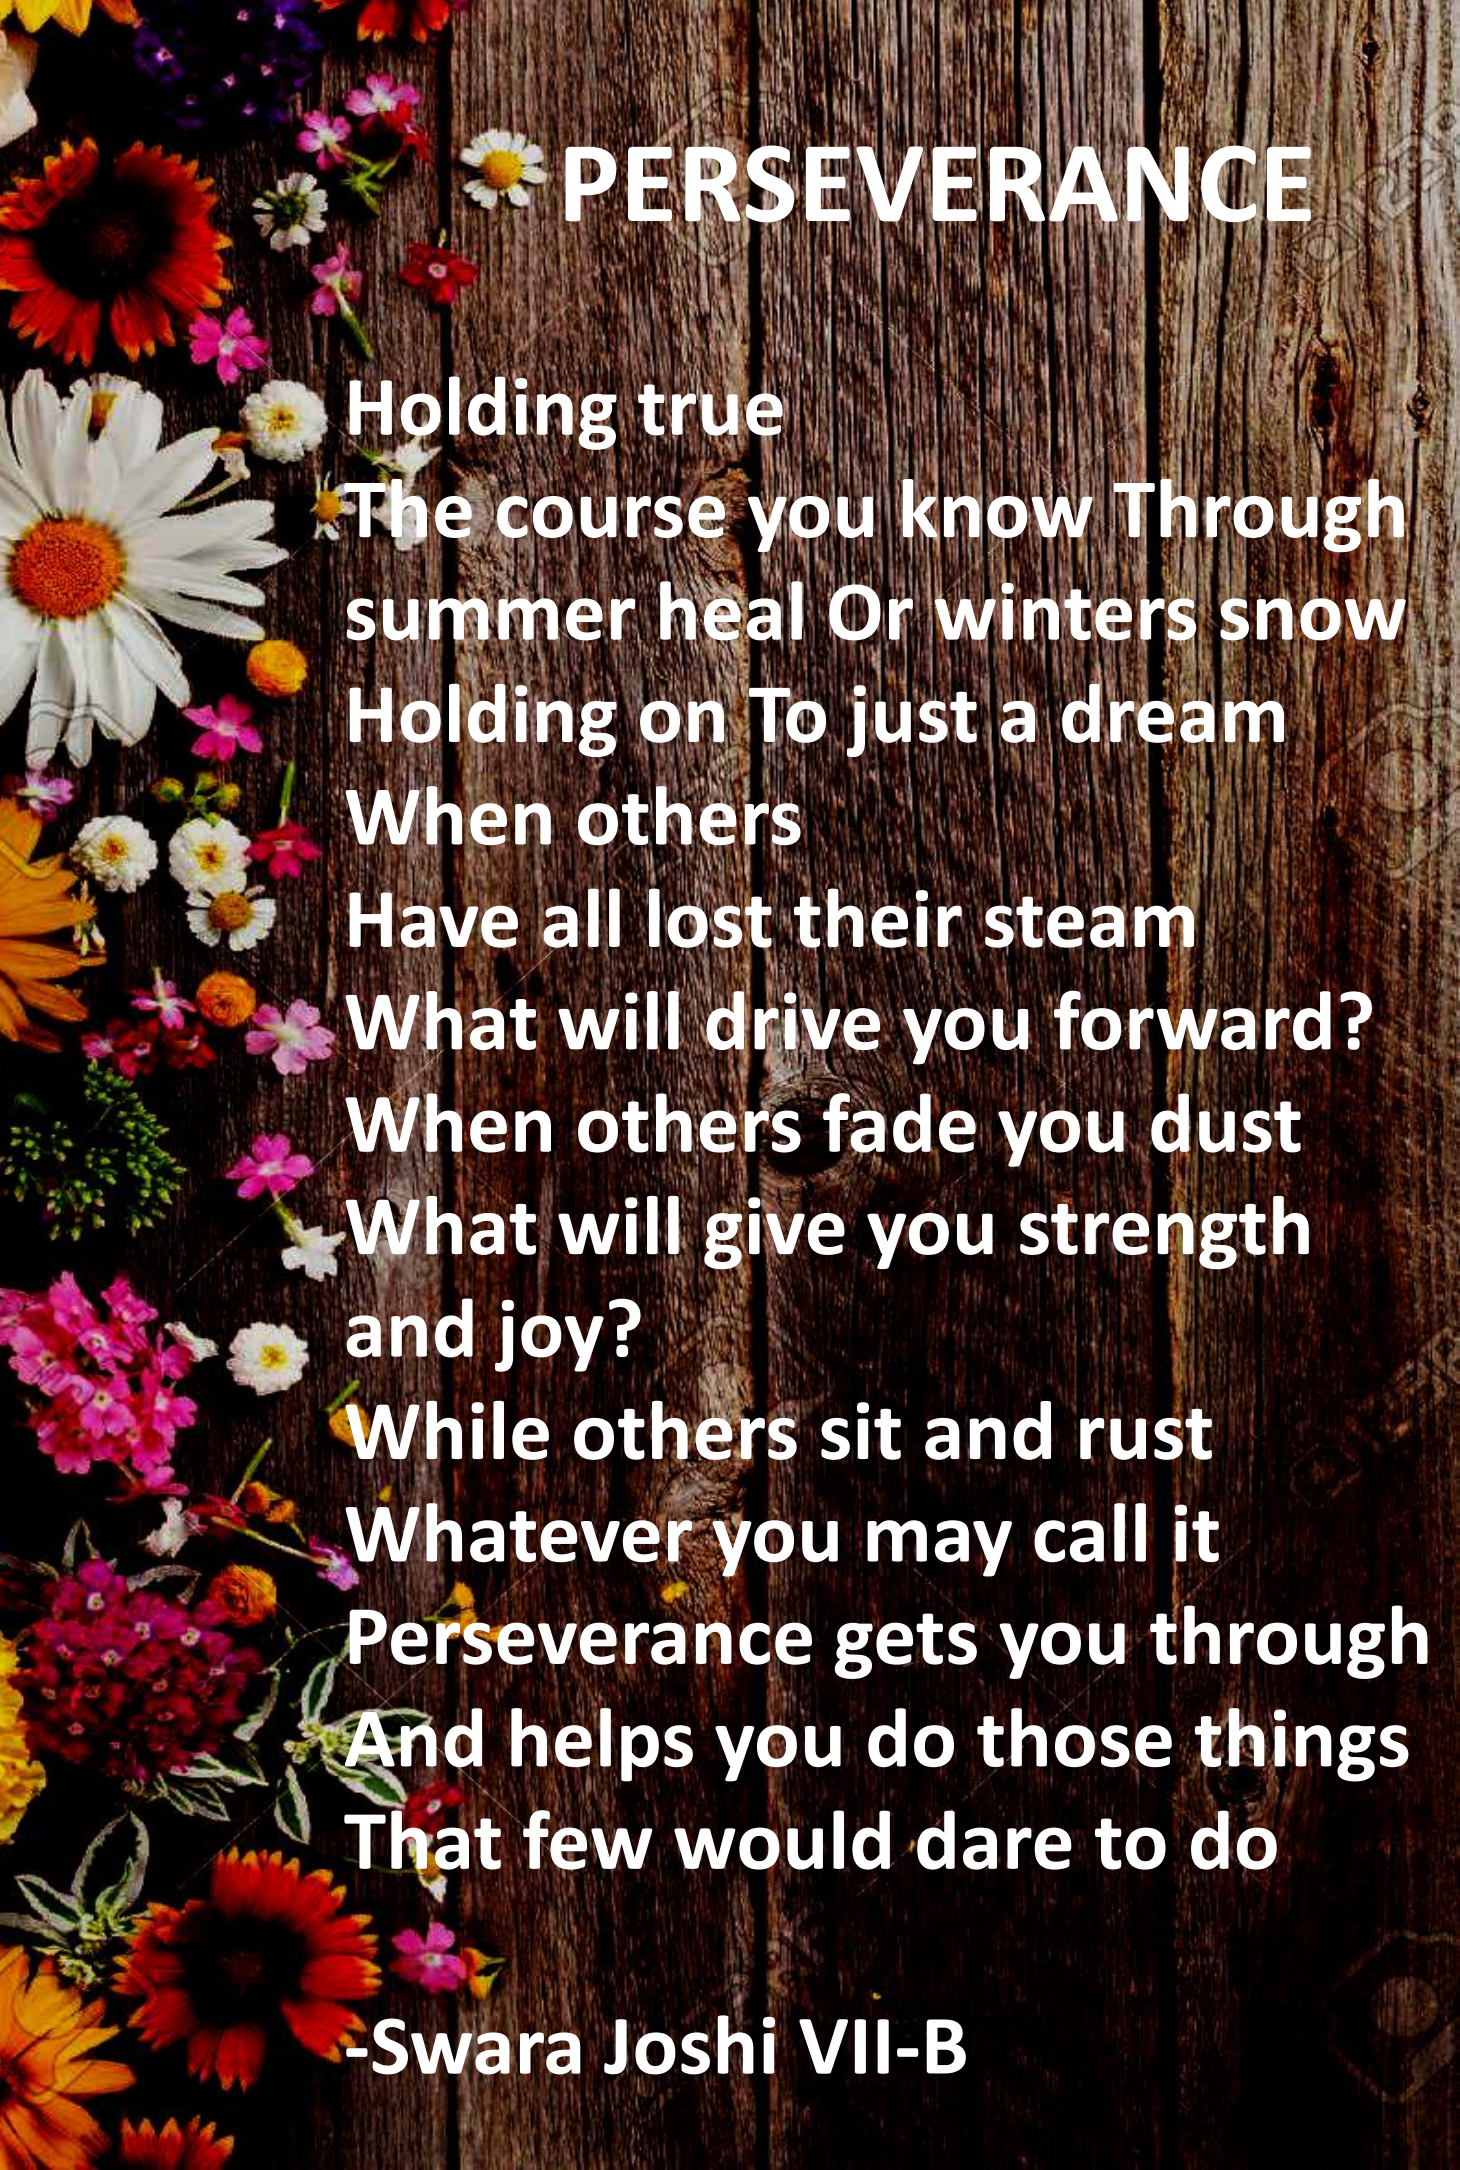

**“I CAN DO IT, I WILL DO IT,
SAY THIS LINE AND CONTINUE YOUR
TRYING”**

**“LIFE HAS HUNDRED LOSTS AND
PROBLEMS, BUT HAS ONLY ONE
VICTORY”**

**“SEE THE RIGHT CHANCE, USE YOUR
BRAIN, AND CATCH THE VICTORY
TRAIN”**

**“HAVE PATIENCE AND DON'T LOOSE
HOPE, JUST HOLD THE
PERSEVERANCE ROPE”**

- Narayani Bhavsar (VII A)

PERSEVERANCE

Holding true

The course you know Through
summer heat Or winters snow
Holding on To just a dream

When others

Have all lost their steam

What will drive you forward?

When others fade you dust

What will give you strength
and joy?

While others sit and rust

Whatever you may call it

Perseverance gets you through

And helps you do those things

That few would dare to do

-Swara Joshi VII-B

FIND A WAY

We may just be the dwarfs among the giants,
please be humble;

We may confront with various impediments
Please don't grumble; As long as we have the
virtue of persistence, Success will never be
impossible

When all the world is extremely dark and
things seem not so clear, When shadows
seem to hover' round Lord, may I persevere.

When it seems, everything's been tried and
there is no way to go,

Just let me keep remembering
Sometimes the journey's slow.

I may just need to stop and rest Along the
path I walk, A time to try to understand and
have my talk with God. As I gain new strength
to carry on Without a doubt or fear

Somehow, I know things will be right, and so,
I persevere.

- Samarth Bandhure [VII B]

Did you know??

Grasshoppers have ears on their bellies. In grasshoppers, the auditory organs are on the abdomen. On each side of the first abdominal segment, tucked under the wings, you'll find membranes that vibrate in response to sound waves. This simple eardrum called a tympanum allows the grasshopper to hear the songs of its fellow grasshoppers.

**Why was the webcam invented?
The webcam was invented by lazy students at Cambridge university who did not want to waste a trip to the nearby coffee pot if it was going to be empty when they got there!
In 1991, too many trips to an empty coffee pot led Dr. Quintin Stafford Fraser and Paul Jardetzky to invent the world's first webcam to help late night studiers and programmers keep an eye on coffee levels.**

LIFE IS BEAUTIFUL

-TR. BHAGYASHRI KULKARNI

Life is beautiful just as roses but it has challenges which are like thorns and have to be faced and overcome by all. To lead a successful life we have to strive hard. One should possess qualities like dedication, commitment and hard work. Apart from these what are the other qualities? They are: Energy, Faith and Determination.

We see the manifestation of energy but we cannot see energy. Unbridled energy can be dangerous. That same energy under control can accomplish remarkable things. When this energy is seen in the life of an individual, people follow that individual. Such a person becomes the focus of attention and a symbol of strength.

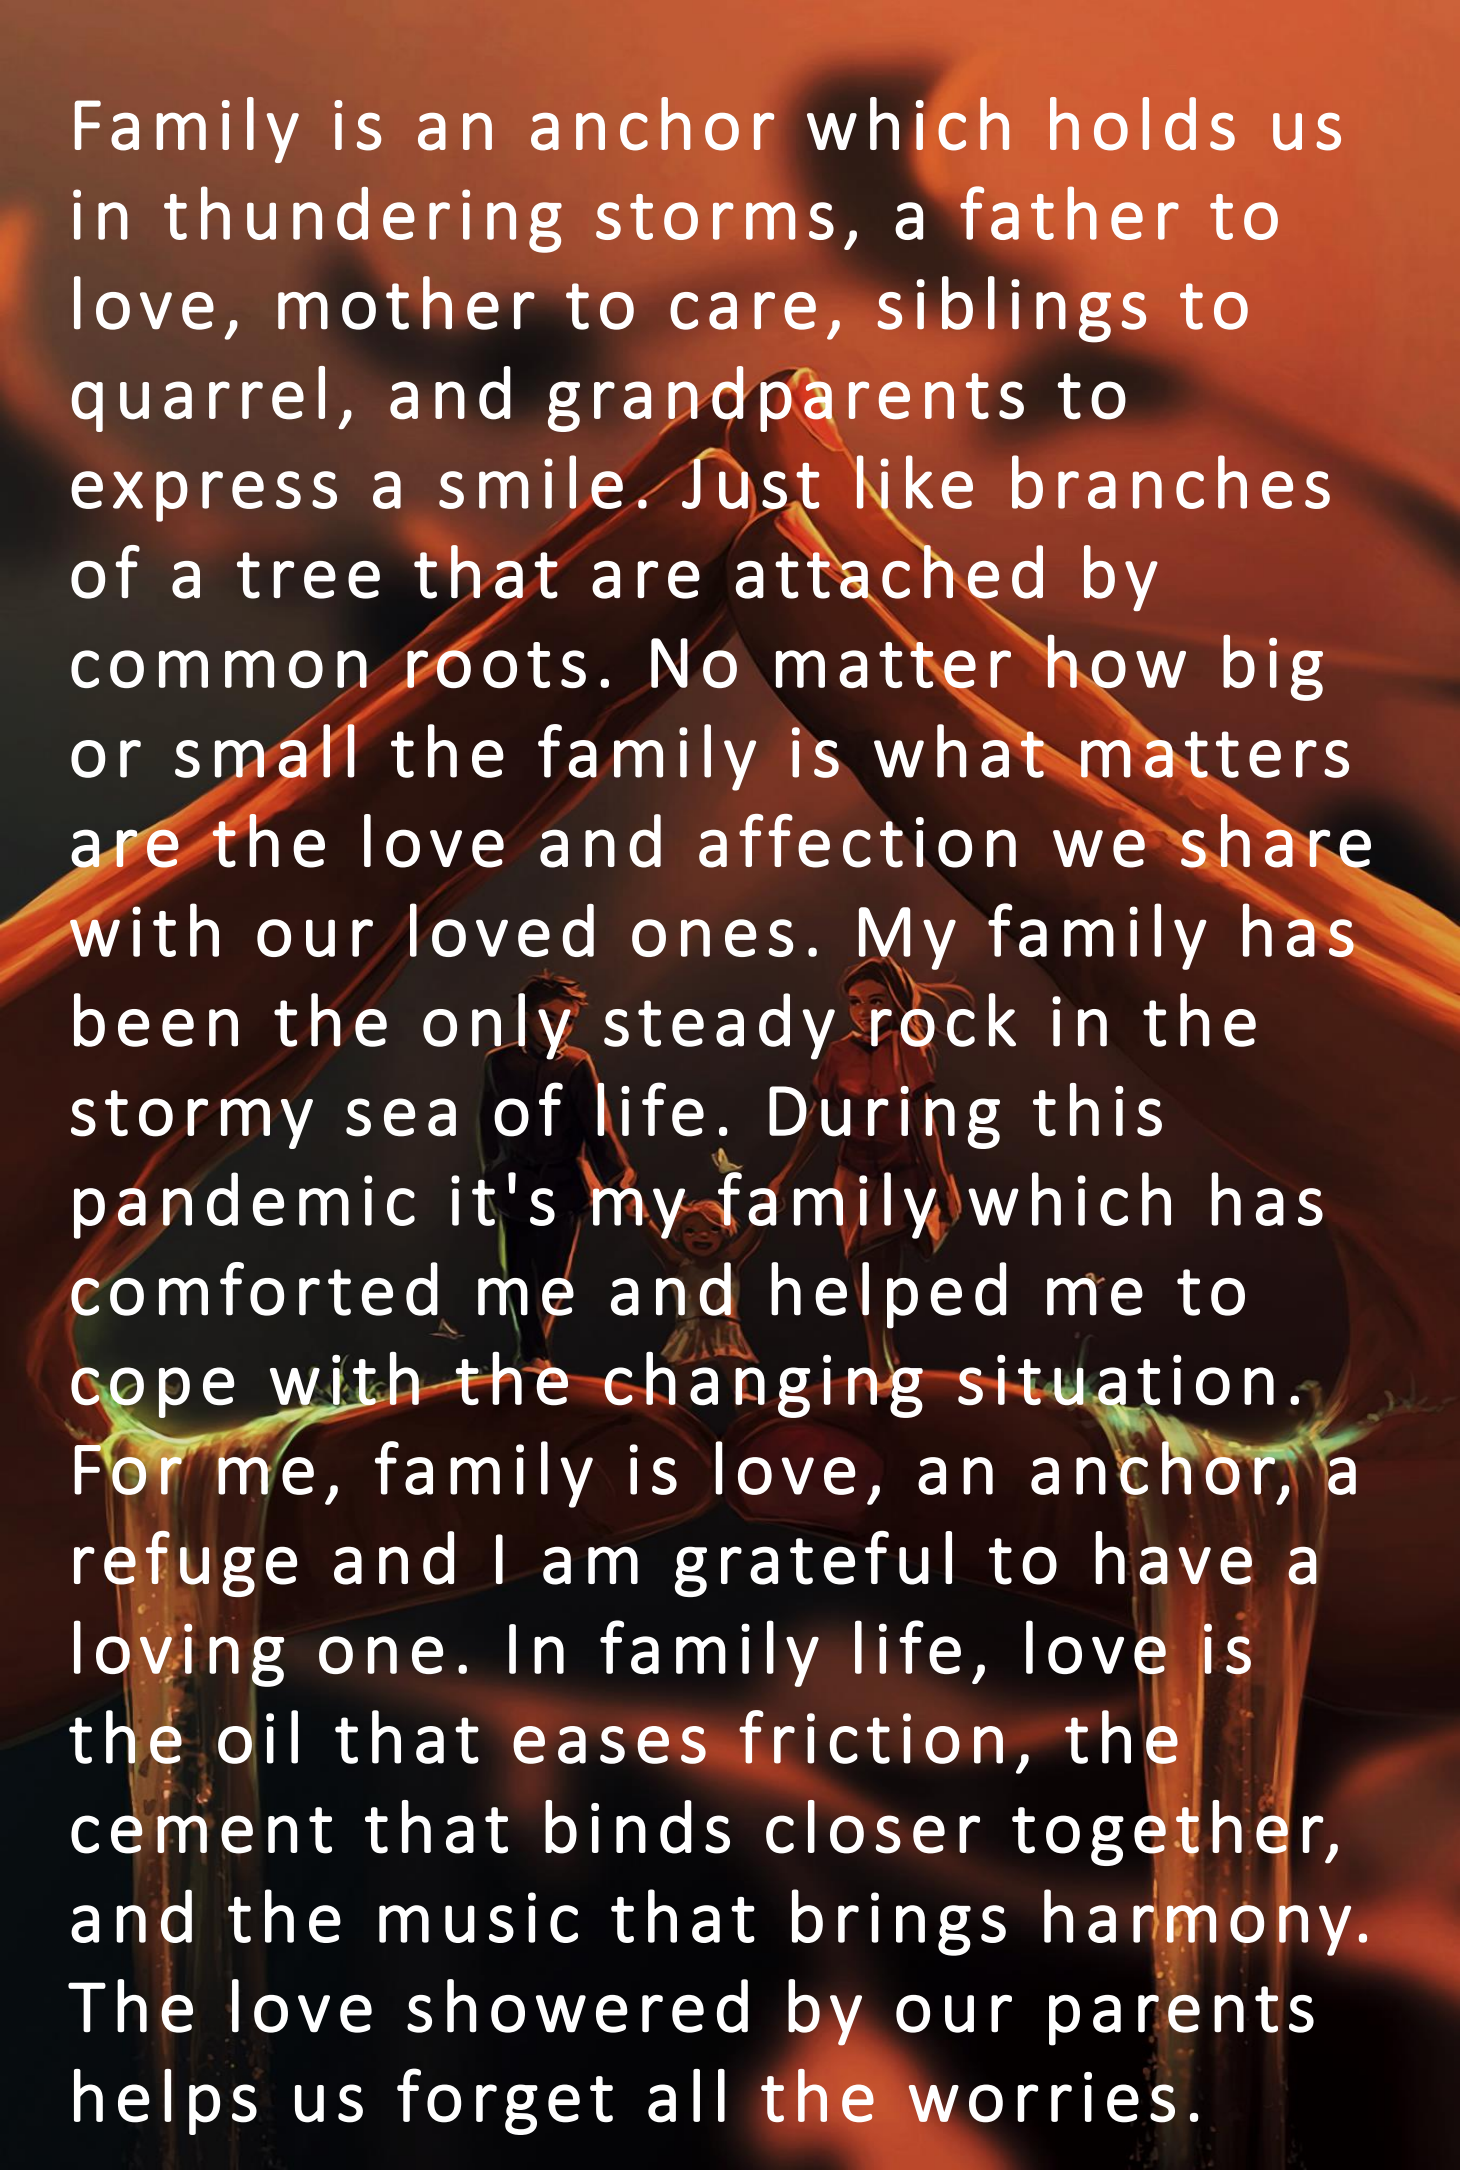

No one can predict with absolute certainty, the outcome of events in the future. Faith has an inner ability to remain hopeful despite all odds. The ability to trust in GOD'S power behind one's success, is a resource most successful people possess. GOD is my strength and guide.

Thus enjoy life but also be prepared to bear the pricks of pain.

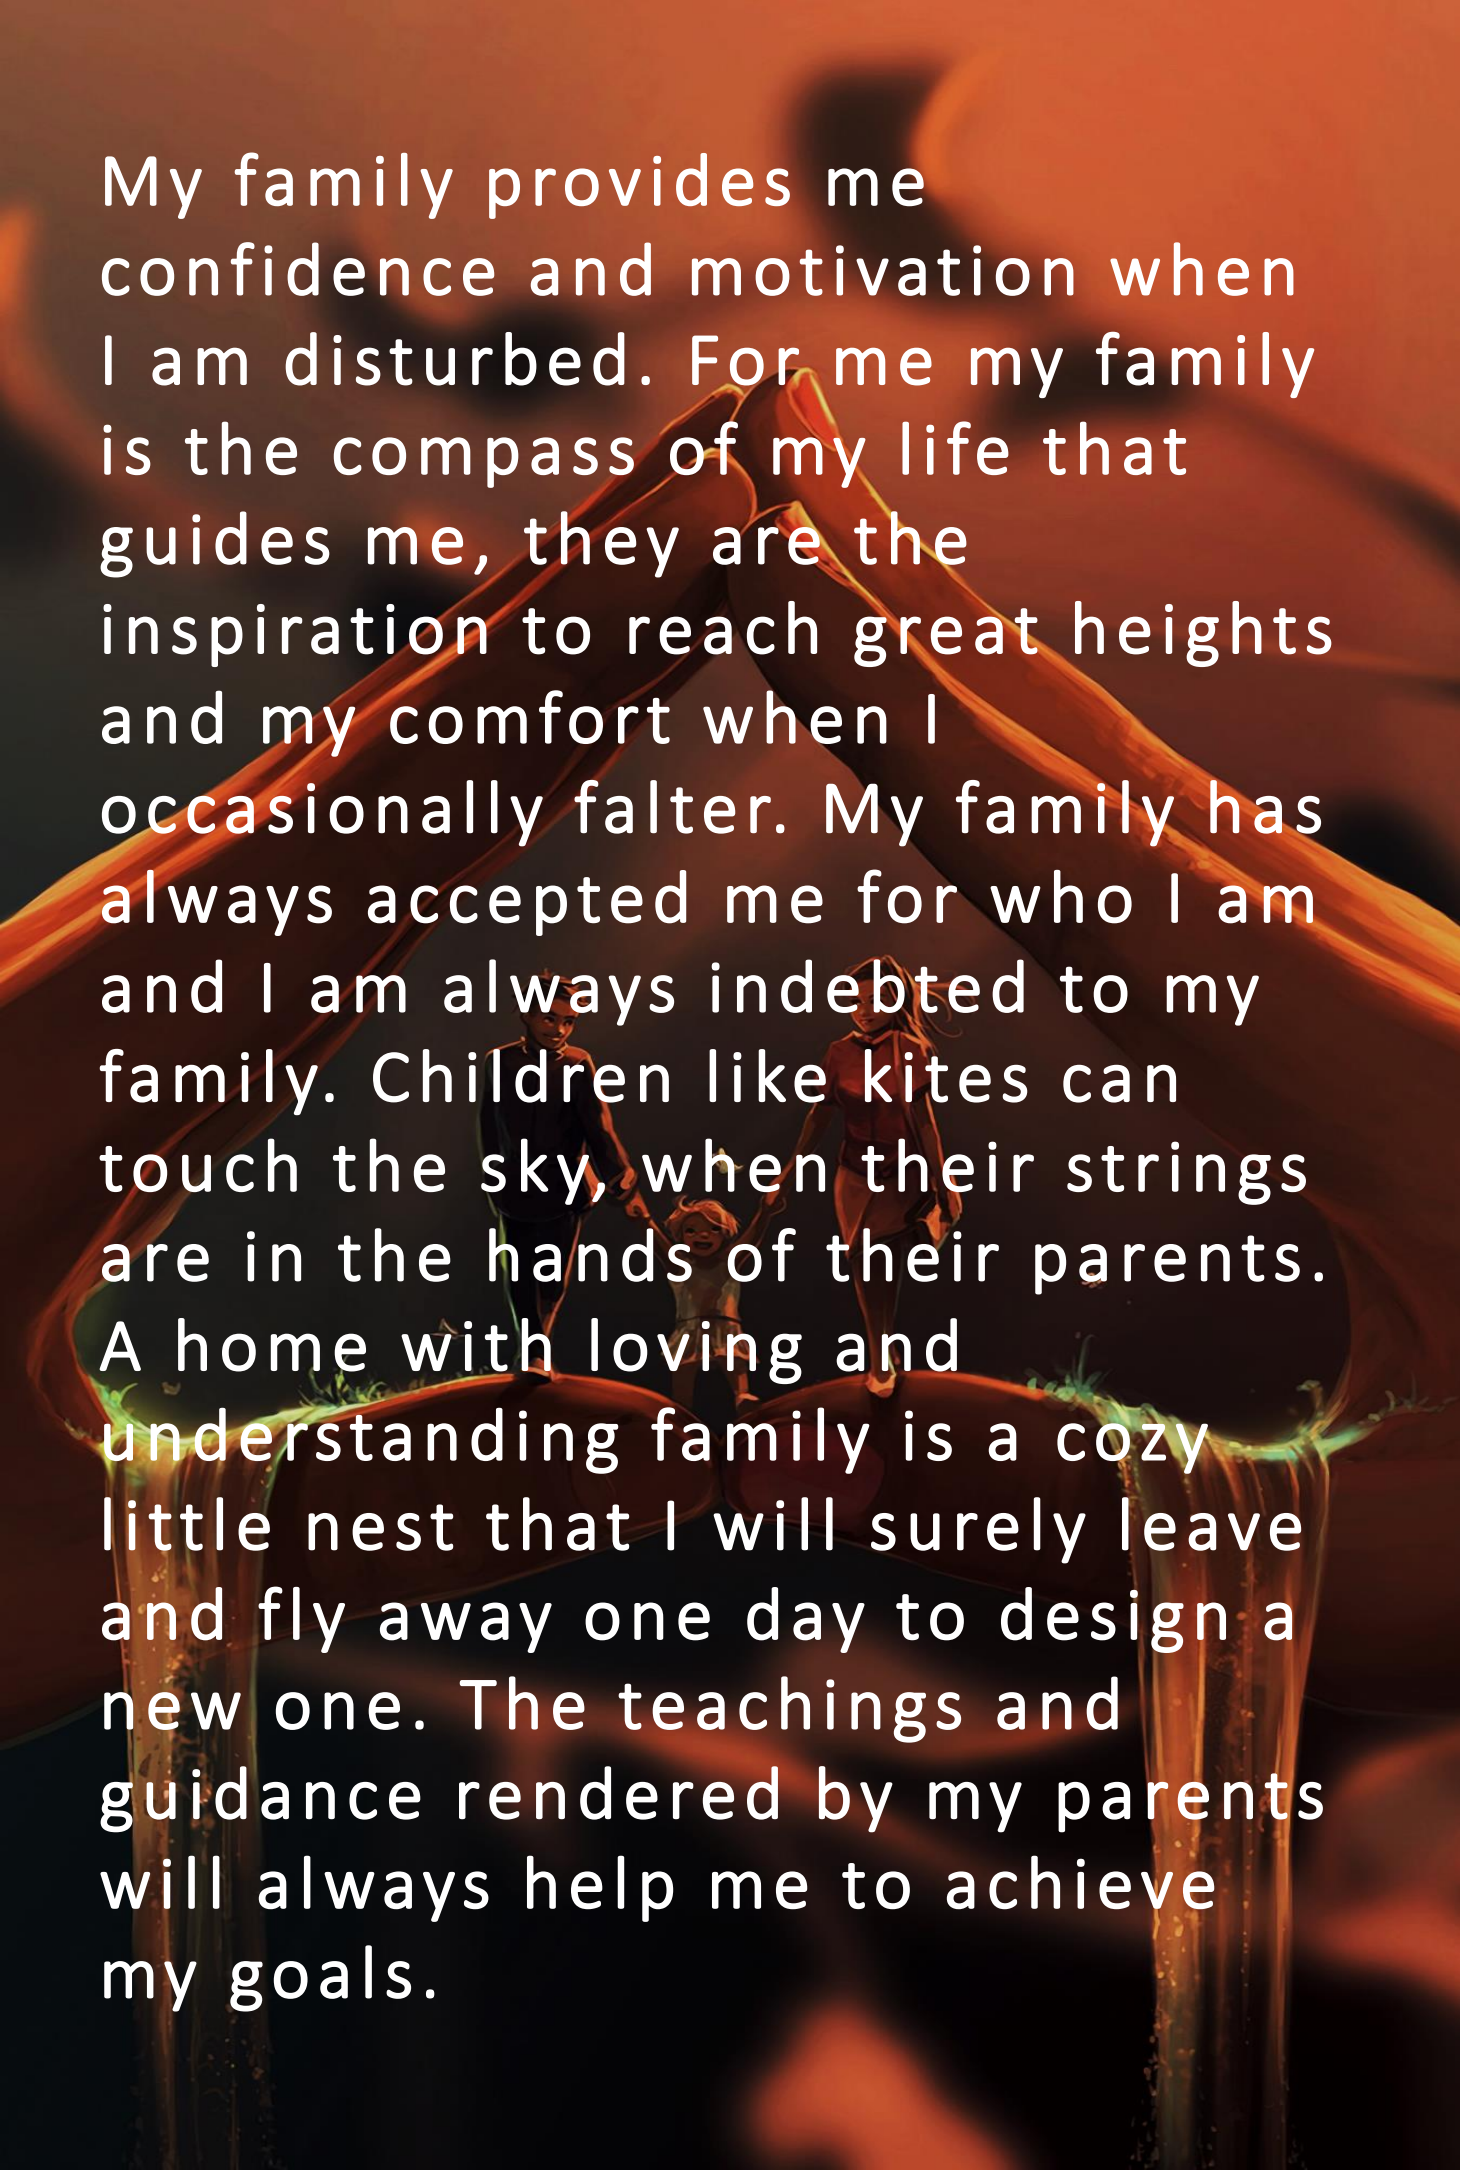

-TR. BHAGYASHRI KULKARNI

MY FAMILY

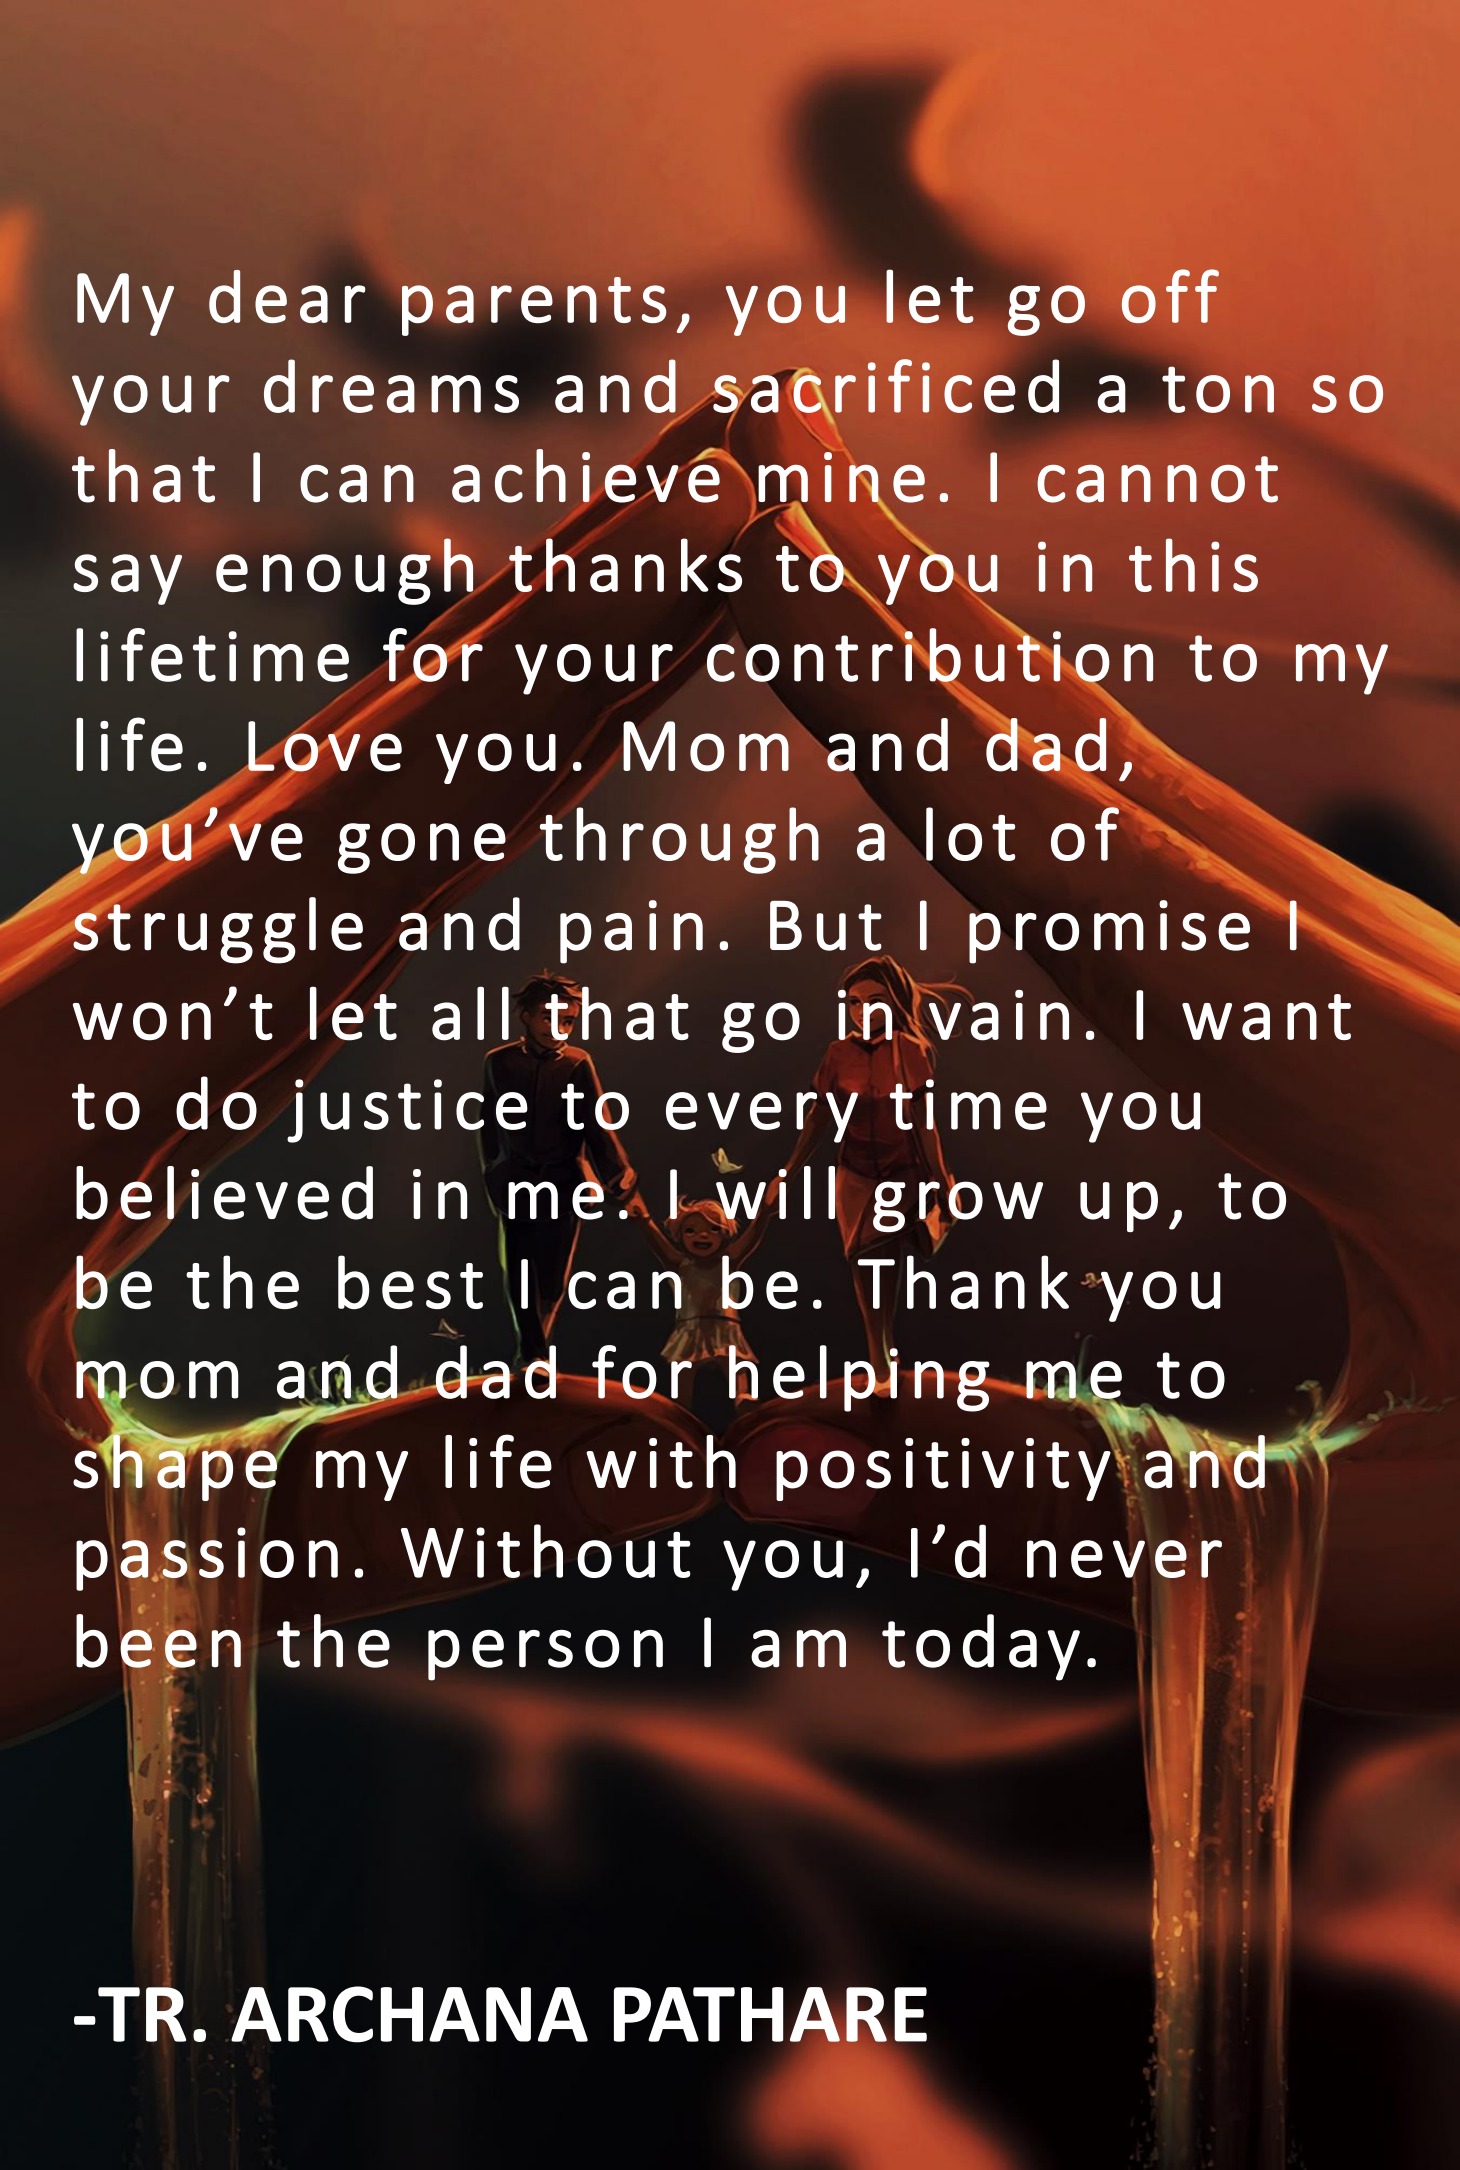

The background of the image is a warm, orange-toned illustration. It depicts a family of four—a father, a mother, and two young children—walking along a path that is composed of glowing, golden-yellow light. The path starts from the bottom and leads towards the top of the frame, where it splits into two branches that curve upwards and outwards, resembling the arms of a large tree. The family is positioned in the middle of the path, walking away from the viewer. The father is on the left, holding the hand of a small child. The mother is on the right, also holding the hand of a small child. The overall atmosphere is one of warmth, guidance, and hope.

Family is an anchor which holds us in thundering storms, a father to love, mother to care, siblings to quarrel, and grandparents to express a smile. Just like branches of a tree that are attached by common roots. No matter how big or small the family is what matters are the love and affection we share with our loved ones. My family has been the only steady rock in the stormy sea of life. During this pandemic it's my family which has comforted me and helped me to cope with the changing situation. For me, family is love, an anchor, a refuge and I am grateful to have a loving one. In family life, love is the oil that eases friction, the cement that binds closer together, and the music that brings harmony. The love showered by our parents helps us forget all the worries.

My family provides me confidence and motivation when I am disturbed. For me my family is the compass of my life that guides me, they are the inspiration to reach great heights and my comfort when I occasionally falter. My family has always accepted me for who I am and I am always indebted to my family. Children like kites can touch the sky, when their strings are in the hands of their parents. A home with loving and understanding family is a cozy little nest that I will surely leave and fly away one day to design a new one. The teachings and guidance rendered by my parents will always help me to achieve my goals.

My dear parents, you let go off your dreams and sacrificed a ton so that I can achieve mine. I cannot say enough thanks to you in this lifetime for your contribution to my life. Love you. Mom and dad, you've gone through a lot of struggle and pain. But I promise I won't let all that go in vain. I want to do justice to every time you believed in me. I will grow up, to be the best I can be. Thank you mom and dad for helping me to shape my life with positivity and passion. Without you, I'd never been the person I am today.

-TR. ARCHANA PATHARE

*Happy New
Year*

*Merry
Christmas*

Let's Welcome Together New
Year With A New Hope And A
